

CAMP LEON

You were way off. I had nothing. No I have even less the people who I've been working with. Aim to be my friend Cassadee us there of us I woke up, and I was sleeping outside, already the show was getting too much to bear. I pulled the blankets over me that I might get some some more I'm going to come to this? I left the compound with the hopes of applying... I hope supplying my new ideas I look at out. He also had plans it is Al found a job spouting the propaganda. He tried to make it seem it was progressive but he only want to find a group of people who would toil for him. You could roll up the sleeves and get with them and make it work as if he was determined to give us all. But he knew the difference he realized the return was coming to him they admired him his followers loved. He learn these techniques from Random he knew what to say to convince people they thought of him at some kind of savior I need to get away saw these young men with hopes and dreams. Al had a system Random had a system they all have systems they teach people about them so that was how the system you learn the orders you got others It was so simple. You could dress it up as the new revolution. You could call it whatever you would. Whatever you would. There wasn't much difference. Out our new how to make those on the bottom feel that they were kings. With their support you made the game his own. Crap A cracked a virtual we have been resolved based on his loss others just went along bye. Random was a tough guy. He was from Europe. He was a communist. He wouldn't let people push him around. He told the truth. He helpf them to get free from the dominant society To show them how to use their power. It was like an iron fist. He was afraid of no one.

"What are you talking about? There was nothing radical about Random for us. It was all based on the self. He made people believe in the collective. But it was his collective. he was afraid of the workingman."

He was convinced that he didn't know anything special. Not like Random. Random worked hard to perfect the loss of Noel. He was putting it into a fact. Just give it a different day. He called personal. He knew how to reward. You reward the obedient didn't even worry about anybody going against leadership going against his leadership after all, he was teaching them how to be leaders the only way to understand how to be a leader was to follow later. Uses knowledge to let them know that he was in charge. He didn't even need Boston Road. He just showed the flaws their ways of thinking that gave them a sense of power that came a sense of confidence and with that confidence and control other people. It was the power of the well. It was the power of the idea. Random had given him his blessing, and he had adapted those ideas to his present calling now he had believers area I was going to be like that I didn't want to think that my dreams are going to drive I didn't want to think my dreams are going to drive me down in the ground I had resilience I had my own version of confidence but that wasn't enough I depended on my contacts but I got trapped with a field of came come through and I was again on my own I was flailing around nothing that I did was working I was running out of money seemed hopeless there are ones on the streets I couldn't raise a job to save my life they didn't want me at the construction sites. I didn't have a delivery vehicle. I couldn't get a job as a janitor. I wasn't presentable enough to be a waiter. There was nothing for me. I was no longer quick enough. I couldn't do your man's job. Nobody wanted to buy my books anymore. I couldn't sell poetry in the street. I didn't have the strength to work a full day at the warehouse. I wouldn't survive on the

form. There wasn't much here I was down and out I found myself in the middle of I watch the mall the masses people wore down too much to do anything but survive

"Our reach deep into myself. I felt strong there was the Emperor of my anthill."

"Ant hill!"

"Are you a vampire?"

"What does that mean?"

"Look like a vampire what a vampires look like."

"They try to assert themselves. Eventually the night takes hold."

"Some guys have all the luck!"

"We didn't make this world; we just signed in."

I realized that I could find a way out of here. And I wanted to share what I knew. But that would not have affected the others. They were drawn to their own texts, and they hardly recognized any advice which did not fit their orthodoxy.

"When you look in the mirror, what do you see?"

"Someone who is able to take a risk. Someone who realizes what she has to do in order to escape these forces swirling around here."

"What are the two texts?"

"One points the way toward absolute pleasure, and the other shows the route of eternal pain."

"You can be redeemed from suffering."

"I wake up in the middle of the night screaming."

"What would you consider to be officially the middle of the night?"

"What are you willing to sell? What will you part with?"

"We have a ll parted with everything. Now we redeem garbage. We are writing the new handbook."

"What are the basic principles?"

"We won't be able to talk about them for one hundred pages."

"We do need some foundations. Why have our lives headed in this direction?"

"There was a sign which said Camp Leon."

"I have not seen the sign."

"No one sees the sign until it is too late."

"I hate to think that my life has gone this way."

"I never thought that it would get this far out of control."

"They know what you are doing."

"I know the dance."

"What about the music?"

"We need readers."

"They are going to be mystified. They will only see what they want to see. Fantasy and self-help. Conspiracy theory and celebrity drivel. They will either kneel or oppress. There is self immolation."

"What are you telling me, Steven?"

"I don't think that it would help if I did the collected works of this place. It would never capture the reality of their social experience."

"Are you here to get material for your writing?"

"I am not a fucking reporter. I am desperate."

"Isn't your desperation only reinforcing your inability to escape this place?"

"I don't need glib arguments. I live this way because I have few other options. You don't run out of gas because you think that your mind can power the car. Either you have too much on your mind, or you are trying to stretch your money. And nothing never stretches that much,"

"You are giving in to your own fantasies about yourself."

"I had a job. Money was coming. And it dried up before I could react quickly enough."

"Don't you like it here."

"I am not really connected to the here of this place."

"Some people are afraid to head this far out."

"They see it as all a matter of bad judgement. Sometimes, you have to bet on one course of action. You have to take a chance."

"Only fools take chances."

"We are all fools here."

"We love our enjoyment, and we embrace our pain."

"We are never that philosophical."

"If there is a mirror here, do we ever see?"

"We talk quickly, and we find solace in what we think that we are hearing."

"Are you teaching a different way to listen?"

"At what point does your experience actually motivate writing?"

"I want to explain how others respond to me."

"That said it all."

"What did it say?"

"It said that I am willing to offer you the world. I will give you a map to the mansion on the hill."

"Should I be watching this?"

"I want to take you to shrine."

"What is being memorialized?"

"Does it retain its sacredness if I do not believe?"

"Believe originates in experience. If this representation is enough to evoke a clarity about your life, it works to inspire the viewer."

"I feel good about what I am looking at."

"These are a few twigs and some boxes. I am not sure that I can interpret the liturgy."

"Does there need to be an accompanying performance?"

"We are looking for the celebrated disciple."

"What was she willing to endure?"

"Her own loss of faith."

"That pain that seemed to linger inside of her."

"Does such a thing ever exist?"

"Do you want to mock her progress?"

"It is better if it is all a little off."

"Are we going to revere her efforts? Is she the prophet among us?"

"Where do you want to take this?"

"I am going to convince myself that I am right."

"She did as much."

"How did she end up here?:

"Was that a sad story?"

"You are going to have to make an effort to find out."

"Is there ever reverence without pain?"

"Better a little devotion."

"That is your story."

"Who is devoted to who?"

"Do you want to interrupt?"

"It is not as good as it seems."

"Can you explain the flowers?"

"I found the flowers."

"What do you want to do with flowers?"

"I want to place them somewhere significant."

"Does the placing give the place its significance?"

"There needs to be an explanation. Things like this do not just happen."

"Where is the back story?"

"Does the story need a suitable teller?"

"Is there a suitable teller."

"I thought that was my job."

"You see all this, but you are not affected. Is your tale to be believed? You are creating a catechism to sustain your own belief."

"It always works like that?"

"I want to take it further."

"Are you making this up as you go along?"

"I am going along as I make it up."

"Words are not going to do the trick."

"A night out here will get you looking for miracles."

"If that's all there is to it, then it doesn't seem all that bad. There's a lot more to it. The giving up. The closing the door. That book just closes for good. And you flail around trying to figure out what is next."

"So most people have rescue around the corner."

"Knock, knock. I am here."

"What do you have to tell me?"

"I have nothing to tell anyone."

"I need you to call me."

"What is this about?"

"This is about you."

"We don't have to stay here any longer."

"I have what I want."

"It doesn't work like that. The book is never going to get written that quickly."

"Would anyone know? Would anyone ask? Would anyone care?"

"You expect the effort to come from outside of the self. You do not see how you are

implicated."

"Sorry, I am talking to my friend."

"What is that about?"

"I assumed that you want to aks me something. I was telling you that I did not want to talk."

"There is no leeway here."

"I am sick of how they are interpreting this."

"I am not part of any of this."

"Can you see that far away?"

"It is closer tha you know."

"What does that mean?"

"No one is going to see. They are too close."

"I can help."

"It is not about help. How far are you willing to fall?"

"Is this about forgetting?"

"I had it worked out."

"I was flattered."

"This is not about flattery."

"You can take my place."

"You have given me a privilege."

"They do not undersand what it is to be without an answer. They believe that their answer works."

"I hear a fire truck."

"Someone is facing the fear."

"Give me my phone. I do not want to think about it."

"What is your phone going to do?"

"It is going to provide a needed defense."

"What do people have here to protect them?"

"More blankets."

"More places to hide inside the head."

"What are they hiding from?"

"Too much talent. The burden of their lives."

"I need to get out of here while I can."

"What is the smile for."

"I am following all of this."

"This does not work anymore."

"I hunger, but I am not fed."

"Are you using your needs a way of forcing people to act in a particular way."

"People do no notice."

"That is why we have writers."

"What?"

"New distractions. We can get people to forget what is around them."

"The story has come to a standstill."

"I didn't realize that you were running the show."

“It is the one text. The permission story.”
 “The creation story.”
 “I want to say that belief gets them this way.”
 “They do not have much to hang to.”
 “Where is his helper?”
 “What are you talking about?”
 “The person who does art.”
 “The people who make people scared.”
 “The ideas which make them afraid.”
 “I can’t move of my own volition.”
 “There are hidden powers.”
 “Like witches.”
 “You are a vampire.”
 “I want the ability to appear at will.”
 “You appear when I need you. When I don’t need you.”
 “I need to turn all my assets into fungibles.”
 “Don’t drop a thing!”
 “I lost everything that I owned. It was all in one suitcase. And someone walked off with
 it.”
 “We have found a new place of residence.”
 “You are smiling too much.”
 “What do you have there?”
 “I have my reality.”
 “What is a reality? All experiences are valid. Reality is just a method to police our
 thoughts.”
 “Where is this going?”
 “I do not know. I have rejected the policing of my mind.”
 “Is there a point?”
 “Some people have had too much enjoyment.”
 “Where are the rescuers?”
 “I do not have the energy.”
 “He made his voice known.”
 “This is not what I need to here.”
 “There are many circles in Camp Leon.”
 “What does that mean?”
 “There are layers that you do not even see. Everything is organized in a complex
 manner.”
 “This system is coming apart at the seams.”
 “We can destroy you if you want.”
 “I do not want to lose.”
 “Everyone is lost here.”
 “I want to see the map.”
 “No one sees here. We all grope our way. That is how we survive.”

"You are going to have to go through a transformation."

"There is nowhere else to go."

"I am not going to do anymore."

"I cannot deal with this person."

"We are not making progress."

"There is nothing to learn from this person."

"I cannot help myself."

"Why are you touching me?"

"Touching means something important."

"Give me some coffee."

"I cannot reveal everything that is happening."

"Humanity abandons itself."

"What happened to you?"

"I fell."

"No one is going to save me in this place."

"This is the showdown."

"What did I miss?"

"A lot of noise."

"Why am I doing this?"

"None of us are doing anything. We eat. And we pass time. We try to stay warm. We fight off thieves. People steal our things. We have nothing to show. Time presses down on us. We barely remember a thing. We change the story because we want something to cherish. This truth is enough for our survival."

"I want an answer."

"I am too cold to wonder."

"Can you save me?"

"I am not going to give you my blanket."

"You are bothering me."

"You are a frustrated person."

"What do you want to know?"

"I want to know God."

"I don't like things that are written down. I have to understand them as they happen."

"I am not trying to be mean."

"I am not going to love you."

"What is that about?"

"You keep touching me as you talk to me."

"I like short answers. If you can say it simple, then say it."

"Good. If I stay longer, I am going to give you longer answers."

"I need you to come save me."

"I do not exist."

"I want you to exist."

"Give me an answer."

"This is what is happening to America."

"Come to me. Help me to live."

"Do you want to understand?"

"Writers write. Speakers speak. Angels come up with solutions."

"What do you want to know?"

"Why are you so appealing?"

"Are you an angry person?"

"I know what is happening."

"I am not going to learn from this."

"I need to give this a go."

"We are going to get new sleeping bags."

"I want investment capital."

"I need to find an angel investor."

"You have to learn to accept your lot."

"Go, and sit down."

"I was trying to be entertaining."

"I need you to explain."

"You solved the whole puzzle, but you wouldn't put the one piece in place to make it hold together."

"What does that mean?"

"How can I change the shit that floats around me?"

"I do not want to change it."

"I might do one thing different. I bring my dog to the grocery store."

"That is not going to change a thing."

"I only want to be turned on."

"I cannot turn you on."

"You are making me cry!"

"I AM HERE TO MAKE YOU CRY!"

"I AM HERE TO MAKE OTHERS CRY!"

"THAT IS A MIRACLE!"

"BINGO!"

"I am writing here so that you will come over here and ask me what I am doing."

"No one writes in Camp Leon. That could be an invitation to death."

"Do you want to watch movies?"

"We have no electricity."

"Where the fuck are we?"

"We are outside of ourselves."

"What do people see this experience as sacred?"

"Do you like it as it is?"

"You cannot do that here."

"Why do you think that is happening here?"

"The haunting is here."

"I was not able to work anymore."

"Are you interfering?"

"I do not be the one to tell you that you cannot act that way here."

“What do you know?”

“There is no knowing here.”

“I have been here all this time. You seem to be a wise person.”

“Forget everything that you see. That is why you are here in the first place.”

“I do not want to be excluded. “

**”YOU HAVE TO RECOGNIZE THE GENIUS WHICH IS GOING ON HERE.
THEN YOU HAVE TO ASK A QUESTION WHICH CREDITS THAT GENIUS.”**

“I can do that. Anyone can. You are not special.”

“Of course, I am not.”

“IF I HAD ALL THE ANSWERS, I WOULD BE A BILLIONAIRE.”

**“IF YOU HAD ALL THE ANSWERS, YOU WOULD REALIZE HOW TO TAKE
THE BILLIONS FROM THE BILLIONAIRES AND TURN IT INTO SAND!”**

“You could save the world with their billions.”

“The billions are what enslave the world. Count it up!”

“I think that you are resentful.”

“I live in a fucking box. What do I resent?”

“Someone is trying to take your box.”

“I want an in!”

“Do you get it?”

“I am it.”

“There is no wisdom here.”

“I am in hell.”

“They serve good tacos.”

“You look great.”

“I found a magazine. This magazine can make you look fantastic!”

“Listen to what is being said.”

“Amen!”

“Shut the fuck up. You are making so much noise that I am finding it impossible to sleep.”

“I am getting closer to the creator.”

“You are getting further away from me.”

“What do you want from me?”

“I want conversion.”

“Mind to body.”

“That is how it always happens.”

“Do you lead a cult?”

“I left a cult.”

“Why?”

“I did not trust the leader. He wanted to torture me. He wanted to hurt me in a worse way than anyone else in the group. He was afraid of me. He knew that I did not believe. I could not get the hand of his holy ways.”

“How does this function?”

“We have the way.”

"Your way became this way."

"I am better at this."

"I have a classic answer."

"Believe in yourself."

"I has so much self that I overdosed on this shit. I was sleeping on the pavement with only one shoe on."

"Did that become a nickname? Or a way that you could not escape yourself?"

"I want your God box."

"It does not need juice."

"How does it move?"

"On electrons."

"This is genius."

"I made it myself."

"No, you did not. You stole it."

"I understand the theory."

"I have heard that before."

"There is so much shit."

"You have a good memory."

"I have forgotten more than I remember."

"I get it all."

"Teach me how to do this."

"I am at the far reaches of the camp."

"Please, ask me a brilliant question."

"Who has the gold?"

"There is a lot of gold in the camp. That is why this is such a brilliant move. We have discovered how to hide all the gold. There is more gold here than in Fort Knox."

"What is in Fort Knox?"

"Golden Twinkies."

"This is marvelous."

"I am so far out there."

"You look like someone I know."

"This is marvelous."

"Like the Pied Piper."

"I will follow."

"I have a lot more to say."

"I have seen everything that I ever want to see."

"I want to see the gold."

"I am afraid that I will eat all the gold."

"Spoken like a true cockroach!"

"Mother took away the rattle."

"Rattle, rattle, rattler."

"I am in charge."

"I have been tempted to ask for what I cannot have."

“And what is that?”
 “This is beyond that.”
 “You are in it.”
 “I want a snack candy named after me.”
 “This is not jail.”
 “This is worse than jail. We are doing it to ourselves.”
 “I am not getting the math.”
 “The universe folds over on itself.”
 “I have already seen that resolution.”
 “The Twinkies are crushed by a semi-truck.”
 “This does not improve the economic prospects of the universe.”
 “Are we talking economics?”
 “Economics requires leverage.”
 “Leverage is more than an idea.”
 “What do we have?”
 “We only have ideas. They never want to listen to us.”
 “There is one coming after, and she has the theory.”
 “This is going to take more than theory.”
 “It feels good to me.”
 “I get cookies.”
 “Go back, and sit in your place.”
 “I have a box.”
 “Go lie in your box!”
 “That sounds prophetic.”
 “I have an angle.”
 “What is it? Finance. Are you joking me? Are you a hedge fund manager? Or do you
 just do credit counseling?”
 “I told everyone to suck it!”
 “I wrote my name down.”
 “In chalk.”
 “I had no chalk. I traced it in mud. I wrote a check to the universe.”
 “Who is going cash it?”
 “The banker.”
 “I can be the banker.”
 “How good is your memory?”
 “I remember everything.”
 “You are admitting that you are useless.”
 “No one really understands.”
 “You only want to protect yourself.”
 “You have sterilized your assets.”
 “I am in charge of real estate.”
 “Are they mocking us?”
“Are you mocking me?”

“What does that mean?”
 “Are you pretending that you own something that you do not own?”
 “How is that?”
 “I need to sell my blood.”
 “I need to sell my bones.”
 “Who is buying?”
 “The bone buyer.”
 “This place is sick.”
 “I am flying.”
 “You are not allowed to experience anything greater than any of us.”
 “I do not like the music.”
 “There is no music here.”
 “I am a saint.”
 “You have not sinned enough to be redeemed.”
 “That does not work in Camp Leon.”
 “That is the only thing that works.”
 “Where are you walking by yourself?”
 “I am walking on water?”
 “Where did you learn that skill?”
 “I knew that I would need more skills if I wan going to succeed.”
 “Have you solved the problem?”
 “It is a language problem.”
 “I am not sure that I can do this.”
 “I do not like these numbers.”
 “You drew blood.”
 “That is not all that I am going to do.”
 “I am infected by life.”
 “We are working this together.”
 “I do not want to sleep on this.”
 “There are no saviors.”
 “You are a sensitive sort.”
 “Your savior was here.”
 “Where did she go?”
 “Back in the bottle.”
 “I did not get here by sucking on oxycotin pops.”
 “The ethical question will overrule the biological question.”
 “Give me one of those pops.”
 “Dance with me!”
 “I have the answer!”
 “I played the piano while Rome burned.”
 “This is more than Rome.”
 “The fascists are doing polkas in Paris.”
 “What about the Hungarians?”
 “We know noting about politics here!”

"You are going to have to make a step."
 "Put gas in my car."
 "You have doused me with gasoline."
 "Your nose smells everything. I got a little gas on my shoe. None touched you."
 "What were you doing with gas?"
 "What is the price of liberation?"
 "Do you really care?"
 "How did I get here?"
 "Your car did not have gas."
 "I can get gas for you. Give me five dollars."
 "What does five dollars buy?"
 "So much."
 "And ten dollars."
 "And millions."
 "I can teach you how to fly."
 "Why would I care?"
 "This is not the problem."
 "That candy did nothing for me."
 "You are not sensitive to sucrose."
 "I do not like raspberry."
 "I have something for you. What do you have for me?"
 "I am not going to pay money for anything."
 "You need to take this from me."
 "There is a punch line."
 "Someone is an expert."
 "Some people are afraid to shut up."
 "Why were you mean to my friend?"
 "Why were you mean to my friend?"
 "There are no friends here."
 "Save me."
 "I am doing a monologue."
 "No one heard you."
 "She fucked me. I gave her my soul. I gave her my lunch money."
 "Shit! Oh shit! Oh shit!"
 "These are the rules."
 "The experts live."
 "Bang it up."
 "We are a conspiracy."
 "They put something in our food. We do not care."
 "I cannot move."
 "Wake up."
 "That happened to me."
 "You do not see."

"You are decayed."
 "You are not going to do a thing about it."
 "Why do you need a law? Pick him up, and love him."
 "I am not a fucking dog!"
 "What?"
 "I am not a fucking dog."
 "How should I know?"
 "I don't bark."
 "Bark for me."
 "You are fucking disrespectful."
 "You are being too nice."
 "What is this about?"
"I am an artist."
"Are you trying to tell me how to get my car going?"
"Give it more gas."
"That is not the problem."
"The alternator is not working."
"The screws are not aligned."
"Who put the parts together?"
"I hate this shit."
"How did I end up here?"
"You wanted to do my story."
"The dynasty."
"Who is the King of Camp Leon? Is there a King Leon?"
"Why do you ask these questions?"
 "You look like someone I know."
 "There is power in numbers."
 "I know you."
 "I knew you before."
 "You did this so that they would give you points."
 "You do not know how to be reborn."
 "How does that work?"
 "What did you just write?"
 "I wrote directions. You do want to get home."
 "There is no home."
 "Who runs this place?"
 "I want to introduce you to Leon."
 "Let us do work."
 "This is so far beyond me."
 "I followed the instructions."
 "There is no Leon."
 "Work, work, work."
 "I need to clean my place."

"There will be others options."
 "What are you pushing?"
 "Come to me, child."
 "I want to teach you."
 "You will have to put down the sword."
 "I know what you want. You want to please Daddy."
 "No one pleases Daddy here."
 "This is a shit hole."
 "I have seen the stages."
 "I can make you better, then I can make you sick."
 "What have you done to me?"
 "I know where this is going."
 "Rescue me.":
 "You are so fucking boring!"
 "I have Cap'n Crunch and Frosted Flakes."
 "My Frosted Flakes are dosed with oxycontin."
 "Daddy gave it to me!"
 "You are so full of shit!"
 "We are all full of shit."
 "She is going to save me!"
 "You are wonderful."
 "I have everything that I need."
 "I know the cycle."
 "Suck on this."
 "You got one of the blessed pops."
 "All praise him."
 "I could be the leaders of a religious movement."
 "I can hold out."
 "I can fix you car."
 "You can't stay awake that long."
 "This is going to last the night."
 "The clowns are here."
 "I need you to draw the waves apart."
 "This is too much to think about."
 "Someone will lead us out of this place. He will teach us something fundamental. He
 will pull all the stones together."
 "We are coming close to the our calling."
 "He is coming."
 "She is coming."
 "This is going to get nasty."
 "Eat this."
 "That is too gooey."
 "Do not complain."

“I need liquid refreshment.”
 “I only want to live.”
 “How did you get involved?”
 “They were all getting involved.”
 “I feel like an insect..”
 “CRUSH!”
 “Who is taking care of this place?”
 “Trash and more trash!”
 “I do not think of myself as an innocent.”
 “I found the limit.”
 “There are all kinds of different limits here.”
 “You are an addict. That is your limit.”
 “At least, I do not live on the street.”
 “That is your limit.”
 “Don’t get near him.”
 “He has the plague?”
 “AIDS?”
 “No. It’s some kind of contagious infection.”
 “Is anyone taking care of him. Are you going to leave him like that?”
 “He is all bundled up.”
 “You can’t just leave a human out like that.”
 “What is wrong? It has nothing to do with you.”
 “I can’t see treating a man like that.”
 “You are not a doctor. You don’t have a place to take care of him.”
 “This is terrible. We need to call an ambulance.”
 “They did. No one would pick him up. There is a community practitioner. She does her best. But we can’t really do much else.”
 “I feel a little afraid.”
 “This is not isolation ward. People catch shit all the time. We are mixing it up in the slop.”
 “I only wanted a place to crash.”
 “The camp would be a more powerful place if we were not so fucked up.”
 “This is so sick.”
 “Sick does not cover it. We probably should be taking antibiotics. But that only creates worst conditions.”
 “How real is this?”
 “This is all that we know. I do not want to know it like this.”
 “I am shaking along with you.”
 “Where are we going?”
 “Dementia.”
 “I want to come out of this clean.”
 “We can only hope.”
 “Why would anyone care? Caring means getting involved. People only want to give

themselves to others. It becomes a sacred experiment. We are not much into experiments.”

“This is the last stage.”

“I am not going to be able to hang on.”

“We all live lives full of contagion. Love is contagion. That is why we are all here.”

“What does that mean?”

“We have submerged.”

“What does submerging mean?”

“We hope that we can survive. But it really qualifies for nothing. So we swim in the filth.”

“That is hardly a way to talk about ourselves.”

“This is how you would see it if you looked at it from the outside.”

“I am already too deep in the inside.”

“This is not meant to be a realistic portrait.”

“What is better in your life?”

“I have got too used to watching my life as if I am not part of it.”

“We are going to have to revert you to another time. To another life.”

“How does this work? Are you going to put me in some kind of time machine.”

“It is a little more complex than that.”

“There is a complex machine.”

“It is more of a psychological process. You find that you are going along with it.”

“I feel a little disoriented.”

“What is the cause?”

“We have moved you back to another time, another place.”

“What remains?”

“You are not in control.”

“What does that mean?”

“You seem more disoriented.”

“What makes you see that?”

“I can see it your face.”

“What am I supposed to say. I feel as if I have been all shaken up and just thrown out here.”

“I thought that I could find some kind of stability.”

“There is not stability in my life.”

“I thought that the knowledge would make it all clearer to me.”

“Who are you?”

“I am ready to go face with face with you.”

“This does not seem very therapeutic.”

“What are you afraid of revealing?”

“I think that I was always afraid of you.”

“Always. We did not know each other for that long.”

“But our knowing was all about fear. You felt that you could intimidate me into liking you.”

“Is this connection even working?”

"You blaming it all on some kind of obscure connection. But it was all about you and me. You said things to me which upset me."

"The world is not going to stop for you."

"What does that mean?"

"Weren't you raised by some kind of flat earth cult?"

"What does that mean?"

"People who do not believe in the integrity of science."

"Science does whatever you want it to do."

"What are you afraid of?"

"Self-knowledge."

"I know more about myself than I can explain."

"That is not true."

"We are not learning from this experience."

"I was dying. I reached out for you. You were not there to help."

"What do you want me to say?"

"Help is on the way."

"What is that supposed to mean? You have just let things slide on past you."

"I wanted some that you were not willing to give. I have been living in this concentration camp. This house is a cult. You have tried to deny these influences. Think about it. That is why you wanted to regress. But there was no stable point in your life. You were looping through these constant crises."

"It is not as bad as it seems."

"Is that what you say after they have anesthetized you?"

"What is the source of the anger? Is it going to be like this all night."

"I thought that you might stop."

"Are you playing along?"

"This is going to hurt you worse than you know."

"I don't want to even contemplate this."

"How did you end up here?"

"I took a bad turn."

"We are a bunch of bad turns."

"There is too much noise to know whether it is us or the world."

"Were you laughing with him?"

"His jokes are funny."

"You living all that."

"I am moving in and out of reality. I want to think that there was one time in my life when I was stable."

"You were too involved in keeping yourself entertained."

"It is much later than either of us realize."

"I feel as if this needle is pricking me. I am having difficulty focusing."

"Don't try so hard."

"See you next episode."

"We have tried every variation."

"Is there nothing else in our lives?"

"I can feel as if everything is crashing down on me,"

"How did this version manifest itself in the present?"

"This is not helping me."

"Is this therapy?"

"Why is this taking so long?"

"No one has a grasp."

"I thought that you were trained."

"No one is trained. We try things that seem to work. You end up doing these things to yourself."

"Self-therapy."

"You are an expert on yourself."

"There were so many things that you did not want to think about."

"I do not want to go back to the cult."

"But the cult is so much part of you."

"This is not Random."

"Who is Random?"

"This came from the house."

"Honey, I'm coming over with my mud hen. I want you to clean him up. My mud hen, and you really need to clean him up."

"What the fuck are you thinking?"

"Know my mud hen!"

"Steven, quit this bullshit with me."

"Bullshit, I want to learn how to use the money, and you're so full of shit

Why am I full of shit? Because the mountain is not meant to be used."

The mud hen is not meant to be used. It is meant to be savored. I'm trying to obey the law, but the law does not want to obey me." "

Why is that?"

"Because some guy."

"What did he do? He showed his money, and there's nothing wrong with showing my hand. It's a pet. I don't want to show my cat."

"This is getting way out of hand. Mud hen money will my money I want my mudhen with my neoclassical you're my neoclassical animal. I want you to teach me things, teach me things, let's play doctor, I'm not playing, I do this for real, save me doctor, save me.

A person who has herself as a client is a fool. Bring me cookies. Cookies and milk. Bring me warm. Go cook it well. We're getting to the heart of the matter."

"Beef."

"No meat for me. I want to purée. No car for me. I want it pure. No fudge for me. I want it pure. You're so cute. You're so cute. I can't think about anything else. To say say what you feel. I feel like you're taking away everything that belongs to me. Could be worse!

How could it be worse? It's already pretty shitty. You're taking what belongs to me, and giving it to other people. Whose lament is this? The Richmond of the poor man, the cookie man, the man who doesn't care, the man who has nine lives. The man who can escape the man takes things to help him remember. I am the man. I am cookie man. Tell me about me.

Lusitania. I don't think I can get through this on my own. Sikkema's out of this have to be I want to race me from the dead how does that work I'm falling down help me up I don't even know what this is about. This is the Kiara show. You don't even have a soul. How do you get off of being like this to people. Where is everything going. I don't see how you could even teach someone. They're going to learn from everything that you don't say. I know what it's like to get left like this in isolation from myself in isolation from you there's nothing that you can do to make me right all these things are going on in my mind you were going off on my mind I wanted you to be something I can't fake this only one kiss is going to make it happen I've got all the equations on this I know how it works I got all the equations on this I know how it works why are you afraid working on this together I thought I could trust you this is so perverse he knew something about it that's why you let them go on like they were all working together when you feel back all layers when you go to fine he keeps racing in the making he keeps raising hand the ante and making jokes the ante and making jokes this is not funny anyone who thinks this is funny as problems. They're all working together. We all come from the same slot. Pigs in a trough. They're all working for the same slob I love you you're my little piggy. But now it's getting good. I have a mine. You can't shut me up. I don't want to end like this. Let me out of this place. I can't take it anymore. Why you doing this to me. Why did you share a picture of what's going on. You're all involved. You don't see it. You don't care. You're getting me sick. Feed me ladyfingers. Drip drip drip. Honey. I think I've got it. I'm shaking it out. I'm going off the deep end. I'm going off the shallow end where is Kiara when I need her. What can Kiara do that other people can't? Just a body. Just a baby. Just me. What are you doing today? I want to come up from downstairs. I want to Aurora. I'm here to help you. Where you been all my life. Turn on the TV. Were you hiding from. The story and going nowhere. I need some almond milk. just tell it what you heard. I want to fuck a duck. One girl one guy couldn't anyone say how are you doing can you say every day for you people what are you protecting what are you people hiding was really going on downstairs what's going on up there's what's going on in your head I can't really be silent about this bothers me all the time if you did it to him at what you do to other people are you going to sue me this is even about you I'm living on camp we on this is about these other people Eva morrow Sally the queen anything that happens to you happens for you is he looking at when you fall, no one is going to catch you just going to hang there why did you do this to me I'm your driver I'm taking you wherever you want to go you missed your calling this is so pathetic...

"Regress you!"

"I need to do this quickly before you want to return to the present."

"You left me here."

"Have you been watching? Do you like what you see? Everything that you see, you already see in yourself."

"I want to talk about things."

"What is the luck of the draw?"

"This is supposed to be a celebration."

"You want to live."

"There was a time when you were living."

"I am living."

"I want to live with the cat."

"I know what you like."

"I cannot even face myself."

"I know that face."

"Take pictures."

"So he was a mime."

"He was not a mime. He did not try to play games. He did not want to confuse people. He did simple things."

"He counted to ten."

"I know how to make all this happen."

"You are very funny."

"We could get closer."

"We were close. So close, and you fucked with me!"

"This is not going to be close."

"It is competitive."

"Do you want to watch?"

"You were so competitive. I got so bored with you. I left like that. And you kept doing it like that."

"Ginny gave us diseases."

"We are all so funny."

"I do not like books."

"What does that mean?"

"I do not like following around long sentences. If you know what you mean, say it simple."

"This is so simple that it hurts. But not in your way. Do you want it all to be your way?"

"I can give it to you if you want it."

"Out of my room."

"I am not in my room."

"Nothing is happening here!"

"The doors are closing in order."

"The cascading orders."

"How did they learn to put everything in place?"

"Didn't he teach you a lot shit?"

"I learn all kinds of shit as it comes to me."

"How do you make this happen?"

"Air currents."

"It is all twisting back to you."

"There is a public story, and a private story. A story which occurs in here, and one that goes on way out there."

"When are they getting here?"

"They are all in hole."

"No one will escape."

"No one knows about Random."

"This is se kind of private experiment."

“You can ask us all questions.”
 “They release these germs that rob us of our ability to think.”
 “People do not feel responsible for the inequity. They are so happy contributing to the public chaos. It makes them feel secure.”
 “What are you talking about?”
 “No one sees because it all seems so far beyond anyone.”
 “You could come in here and tell the whole story for them all.”
 “There has to be a prophet. None of this is prophetic.”
 “Why is this supposed to work?”
 “I am in the children’s room.”
 “There are only adult diseases. That is how we are known.”
 “Everyone has amnesia.”
 “What do they have to offer?”
 “This is way beyond me.”
 “It is meant to be a social experiment.”
 “Why an experiment? People embrace their destruction.”
 “That is some kind of perverse belief by those who want to deny their contribution to shit.”
 “Have you found an angel?”
 “What would an angel be?”
 “Someone who has special skills which no one else had.”
 “The blood is flowing out. I cannot hold it together.”
 “There is a place where it is important to understand this distribution.”
 “I am not even far off!”
 “We are going to work on this together.”
 “Do you have any complaints to make?”
 “My life is a constant complaint.”
 “The worst is supposed to lead to the best.”
 “I just arrived on earth. Where do they serve great wings?”
 “Don’t you want something more? We could introduce you to smart people.”
 “If they were so smart, they would be at the wings place.”
 “This all about cause and effect.”
 “I am not going to share.”
 “Do you want to dominate me?”
 “We are all dominated here.”
 “What holds us together.”
 “Our contempt of each other.”
 “Some things you cannot protect.”
 “The world is topsy-turvy.”
 “I feel like a top.”
 “I am on top of the top.”
 “I open my eyes, and you are there.”
 “Are you going to steal my stuff?”

"I did what I could to find a place where I would not be influenced. But the effects were in my blood. They were in my skin. In the bones. I felt that I could chemically alter the balance. And this would help me to forget all of it once and for all. That only confirmed the very thing that I hated. And I became more and more immersed in that cycle of forgetting. I learned how to crave what I hated. I only wanted to eat. I did not want to eat. I hated my human form."

"Someone needs to stop this."

"I thought that I had a handle on time. I had arrived at an understanding. I was burying everything. And others only became more affected by what was occurring. I refused to admit to my victimization. But I was only numbe to the actual pain."

"You can leave the cocoon."

"I could not leave the cocoon. I altered my form. I reinforced my exile."

"I would never be one of you."

"What does that mean?"

"I respect myself too much."

"We are in a battle with your way of life."

"How do you do that? By living in shit?"

"How do you do that? By having an answer for other people's lives? What is your fucking answer?"

"Are you asking me for money?"

"You do not have money. I have what I need. Even if you try to destroy me."

"I disappeared in this community. This was all that remained."

He disappeared.

"WE ARE GOING TO HAVE TO FOLD UP SHOP ON THE EXPERIMENT. WE HAVE LOST OUR EXPERIMENTAL SUBJECT."

"THIS IS NOT THE FIRST TIME THAT THINGS HAVE GOTTEN OUT OF CONTROL."

"THE HOUSE WAS ALL ABOUT MIND CONTROL. THEY DID THINGS TO OUR BODIES THAT MADE OUR MINDS REACT. IT WAS ALMOST AS IF WE OVERDOSED ON CARROTS, BUT IT WAS SOMETHING MORE MYSTERIOUS."

"I LIVE IN THE HALFWAY WORLD. I KNOW WHAT IS GOING ON."

"I NEVER TRUSTED THIS GUY."

"WE HAVE OUR VALUES."

"YOU KNOW WHERE TO BUY NECESSARY SUPPLIES."

"I thought that I could hang on. I did not realize that I lacked the ability to sustain myself. It wasn't just my diet. They had done something to my will to live. I was not depressed. I was listless. I know loner knew how to create content. I was a toal blank. And that nothingness made it impossible for me to progress."

"Did you make a list?"

"I passed the spelling test."

"Where does this take us?"

"There is no way to explain this. There are tests. Promises to come back. The world has changed too much. I am okay, but the world around me is not right."

"When will this end?"

"I wonder if anyone can take more time."

"There is not enough time in the day."

"Some people get attached to this shit."

"How does that work?"

"You have seen rats."

"Rats are my friends."

"Nature is out of control."

"I felt protected. They did not want me to get any further out there. They were disturbing me. But I could not overcome. I was their little scandal. They found a place where they could hide me. And they offered me enough to survive. But I could not get the momentum to escape. I stayed among them as a virtual prisoner. I might as well have been a rat in a cage. They would toss pellets at me and rattle my cage. I lived with their disease. I tolerated their beliefs. But it did nothing for me. I stayed in place. And nothing would change."

"I am going to escape this place."

"Who are you protecting?"

"I was protecting myself. I was submitting to a discipline that did little to help me to stand on my own. I might as well have been a comatose patient in a ward. That was how I was preserved. Like a mummy injected with drivel to keep me whole. But nothing to wake me up from the suspended animation."

"Did you really have a complaint? You could have changed."

"I was meant to stay like this. Otherwise, I would be a traitor to their way of life. I did not have the motivation to overthrow their regime! I was a helpless player."

"How long did this last? Was there ever any hope of escape?"

"There were times when I did not want to leave my bed. I would spend all take staring at the ceiling. I would zone in and out. I was sure that they were poisoning my food."

"There is another book that I am learning to read. It is almost like a medical manual. I am trying to monitor my vital signs. But I keep zoning in and out. I am intermittent in myself. But I have learned how to leave traces that I can observe. It is almost as if I am looking at a chart. I recognize the fluctuations. I discern my hopes for something better. I often find that there is no improvement. But I do not give up hope. There is a special mastery. It is almost as if I am surfing through my existence. I am riding these waves of past and present. I see something that blesses. It helps me to sense a deep promise."

"I know that there is not promise here. This is a vain desire. I want to take the scraps of my meager existence and bank on them. I am creating something that I can live on. I am sustained by a hope without hope. I am enthralled by my failures. It is not as if anyone is going to rescue me."

"I only wait for rescue. Camp Leon is a fallen place. But the lapse is the basis of our dream of salvation. We are addicted to this absurd dream. So we remain immersed in this self-deception."

"This smell was becoming more than I could tolerate. I had grown used to this. But there was no accustoming to what was affecting me now. Our habitat had been violated by some kind of chemical agent. I almost believed that this was some kind of invasion. I had been disrupted."

"I no longer could find the comfort which I need. I was fading out of myself."

"We only last in our bodies for short period of time. All of us vanish."

"How do you come back?"

"The world brings us back."

"I cannot even offer myself anything to hang on."

"Why did you abandon what you had?"

"I did not give out. Things were taken from me"

"I wanted to scream at Random for taking us all to this place. He was the mastermind of this cruel experiment. He had initially worked from a position of total control. But his model was not universal. As its effects faded, we were all left to fend for ourselves. He had abandoned us. And there was Al. He was touting his leadership group. There was no leadership. This was the most advanced level of total obedience. Random had taken this to a cultish level. And Al realized how he could alter the terms of that conflict."

"I was going to come back and change the balance."

"Where am I?"

"In the repetition, there was only a return to form."

"Oh boy, we have a return to form."

"Did you find the high chair?"

"I got some bad news."

"You are spoiled."

"I am protecting all that I have."

"Some rags and clippings from magazines."

"I have discovered the form of social exchange."

"You were on top of me."

"I tried to keep my distance."

"There was not enough space for any of."

"There are different rules."

"I assume that you read a book."

"There is nothing to hold us together."

I found a spot away from everyone else. I did not want anyone to disturb my serenity. I embraced a moment of total calm. This was not meant to be social. This was now my only means of survival. I was not looking for someone to rescue me. I wanted to be left alone. I realized that there was a danger in cutting myself off from the others. I felt as if they were distracting me from everything that I needed to hold me together. I had plans. I had things which I needed to protect. This was my kingdom. I did not want any invaders to disrupt the order.

"If you are not going to blame someone else, then what are you going to do with your time."

"Are you looking to get into it with me?"

"I just want to be social."

"This is so far beyond that?"

"What does that mean?"

"I was trying to be social, and I ended up here. I do not want to revisit the things which happened to me."

"Look at me! I am just like you. You are no better than any of us."

"I want something to remember."

"No one remembers anything."

"Have you thought that your memories are getting in the way of your progress?"

"What can you do about that?"

"I can actually provide you with other memories."

"I have a family. Bad experiences with friends. I feel as if people have been trying to control me all my life. I never was able to achieve the success which I craved."

"Did that cause you to sabotage your success?"

"I was not that self-destructive. I could never create the motivation to improve."

"I am doing this all for you."

"What are you doing?"

"I can help to create something that you need."

"How do you do that?"

"Are you telepathic?"

"You need something, and I know how to give it to you."

"What does that mean?"

"Do you like your life as it is?"

"What do you have to offer me?"

"There is an order."

"Where have I heard that from? I only see disorder. And this effort to make me feel good about things. I am being anesthetized. That is all that I need."

"How do you do that?"

"Belief. That was my problem."

"I can help you to think about this in a different way."

"I am sure that you can."

"Often, the person who is your most trusted ally is getting in your way. He is telling you things that impede your progress. It takes a while to realize that someone is fucking with you. That narrative explains what has been happening to me."

"Do you feel as if someone is giving you the power to be the way that you are?"

"What else do you want to share?"

"There is no sharing here. You mean it to be therapeutic, but it becomes something competitive."

"Your psyche is not a game token."

"Where is this going?"

"Ask the writer."

"The writer?"

"Don't you work from a text? The route back to sanity."

"I am hearing the same shit over and over again."

"You are not supposed to get that close to me."

"What does that mean?"

"I could be radioactive."

"What does that mean?"

"They were running my life without me. I could not deal with that continuing to happen."

I felt as if they had taken my inheritance.”

“What did you inherit?”

“Some stones and old newspapers.”

“There is one among you who want to know.”

“How does that work?”

“You have to take that step.”

“NO ONE EVER TAKES THAT STEP!”

“They tell me that they do all the time.”

“They embrace their fate. They give themselves to the stars. There could be other stars. There could be another arrangement. But it all ends up like this. It might as well be a row of numbers,”

“You know that you love it.”

“You know that you love it.”

“How is that?”

“I need to be somewhere exciting.”

“I maintain this total separation.”

“Each ritual keeps things as they are. No one is any different. They might as well work with a service.”

“I am aligning the psyche.”

“How do you do that?”

“I twist and turn things until they make their play.”

“Someone will appreciate all this.”

“All accounts.”

“I could be a billionaire.”

“I gave you the billionaire psyche.”

“I want trillions. I love dominance.”

“Why do you complain? Everything that you want turns around and destroys.”

“She said the right word.”

“What was that?”

“Heal yourself.”

“I saw an advertisement that you were down here. I figured that you had skills to change the world.”

“I learned how to dispel the world from my world.”

“I am trying to stay warm.”

“You could be the one who knows.”

“This is deep in the furnace.”

“You cannot be stopped.”

“The fires are burning brighter.”

“I am electric.”

“We have been there before.”

“You are revolting against yourself.”

“Did your psyche cover the points?”

“He is mediocre.”

“She does not understand.”

“What knowledge will you need for the new world?”

“Silence.”

“Is she back?”

“Who?”

“My alter ego.”

“How does that work.”

“I remember things that are not part of me. I become something that I do not recognize.”

“Now, you are being honest.”

“There is no other way.”

“This became a religion.”

“I found the roots.”

“It was all made up.”

“Do you think that I care?”

“There is no dance. Total concentration.”

“They are speaking through me.”

“You do not have a chance.”

“You do have it.”

“You are full of shit!”

“She knows.”

“She is a nurse.”

“I am going to give you the cure.”

“You cannot cure existence.”

“That ended quicker than I thought.”

“I do not want to see this again.”

“That is existence. There is no cure. You wake up, and you nurture what you have. That is the fundamental condition of being.”

“I can’t deal with that.”

“You want all this shit to go away. You do not like yourself.”

“Why is liking myself so important?”

“You need to sharpen your abilities. You need to see your shortcomings as strengths.”

“I don’t need positive thinking.”

“Do you like yourself as you are?”

“My friends are going to rescue me when I need them.”

“What didn’t you like?”

“They are going to be moving in a new crowd with new rules.”

“Kill the pig.”

“What is that?”

“That is the new game that they are playing. It is like a video game.”

“I have surrendered.”

“We have all surrendered.”

"This is all shit."

"You could not write it if you tried."

"I would need long sentences to explain it all. There are intricate movements of thought and personality. You have to hold your breath. You have to take giant steps."

"You are not ready for this."

"Do you have a double?"

"I do not know who is talking."

"I cannot follow any of this."

"This is going to be a showdown."

"I want revenge."

"Only one comes out of this."

"The psyche is divided. The parts go off on their own. You want to learn."

"What is this nonsense?"

"You wanted to learn. This is the only way to explain it."

"How quickly do you want me to come up with an answer?"

"What elements to you want me to use?"

"The rare ones. The basic ones. The elements of consciousness."

"You matched the movement of dollars."

"All these petrodollars."

"We do not gas cards."

"I do not want to break down."

"Break down."

"All the parts go into trucks. They have serial numbers. Do you know what they are assembling?"

"The big one."

"The machine of machines."

"It makes peanut butter for giant rats."

"I am losing track of my psychological review."

"I could put something in the peanut butter."

"There is enough in the water."

"These are behavioral control chemicals."

"How does that really work?"

"I want to see this for what it is."

"I do not want to see a tragedy."

"Go back to the valley."

"You do not know what you are looking at."

"Head back to the hills."

"You should have studied geometry!"

"What are you telling me?"

"This is the only moment when any of this meant any sense."

"Is that how it works?"

"Everyone here has failed some essential psychological test?"

"What does that mean?"

"Make it mean what you want."
 "Who makes these tests?"
 "People who think that human beings are like giant rats."
 "Where is the peanut butter."
 "It is in the soul."
 "It is all in the soil."
 "Some know."
 "I am getting a call from someone important. She is going to take me out of here."
 "Laugh if you like."
 "You do not even have a phone."
 "We have seemed to cross over."
 "I am getting sick."
 "I know what your part was."
 "This is all visual."
 "These books were important."
 "So were law books."
 "These are health books. With color codes."
 "It is happening to me again."
 "I do not feel healthy."
 "Are you surrendering to the germ?"
 "The germ is in the mind."
 "I am toiling with my past."
 "You need to sleep here. You have disrupted the camp."
 "I did nothing."
 "People fear your presence."
 "This is not as pleasant as you think."
 "I am again flailing."
 "Is there someone to blame?"
 "My benefactor."
 "He laughed at my hand."
 "Take this and make nothing of this."
 "I need to remember all of this. It is my only way to escape."
 "There is no way out of here."
 "I have a good memory."
 "No one has a good memory. We remember terrible shit from our lives. Each day there is more tough shit. We are trained to forget."
 "Where did you get the smart ass gene?"
 "It was built in me."
 "It don't help here."
 "Do you have a life?"
 "No one does here. We all have many deaths."
 "I can offer one of many cures."
"Some guy thought that he would make a name for himself by curing us. He only

became one of us. His greed overcame him. And he ended up losing anything that was important to him.”

“Was that deliberate?”

“I want to believe that it was.”

“Do you accept what you are given?”

“I think that it goes back to being self-destructive. It is a kind of reverse programming. If chaos is built into us, then this is a way reveal something else in our biology. Maybe, it is a kind of deep accounting. I really don’t know how to describe it.”

“He really became one of you?”

“It was meant to happen that way.”

“I think that he ate something that he shouldn’t have.”

“It is not as if you eat good food.”

“I think that it was something else.”

“Your turn is coming.”

“This is a nun’s story.”

“I thought that it was a doctor.”

“I am trying to find out about the guy who passed away in his home.”

“I don’t think that it was actually his home.”

“This is getting too complex for words.”

“Are you anointed?”

“There is a lexicon.”

“Let me see it.”

“There is concordance.”

“Let me see it. Nothing makes sense. What are we becoming?”

“Investors.”

“You missed your chance.”

“You will always remember this.”

“It was lovely descending in your hell hole.”

“There are other people who know so much better.”

“I feel as if you trying to create an earthquake.”

“I am not an environmental expert.”

“What are you telling me?”

“I think that we really fucked with things.”

“There is an explanation.”

“I am stuffed with ideas.”

“I never thought that it worked that way.”

“We were all along for the ride.”

“Do you want to do that book now?”

“What are you talking about?”

“You really fucked up.”

“How is that?”

“You were supposed to be some kind of moral paragon. The kids looked up to you.”

“They could still look up to you.”

“You are nothing but a shit.”

"That is just accusation."

"She had the goods."

"Let her put it in a book."

"Maybe she will."

"I could sue."

"And maybe you would have to admit the shit that you really are."

"I will find people with whom I can talk about it."

"I am looking out for you."

"This is the moment when you need to figure it all out."

"He is going to give me the answer."

"I want short answers."

"When you have to explain the socio-economic factors, then there is a lot of detail. The leaders in the city were murdered by their rivals. That left the cities exposed. The new leadership was implicated in the hurt."

"There is always hurt."

"This is why we roam the streets. We sense the origins of our guilt. We cannot move forward. There is no hope."

"You need to get working. There is no much time."

"I am not going to like any of this oncie I piut the book on the shelf."

"They are all going out."

"How did we all end up like this?"

"I need one person to ask."

"History has other layers. There are internal controls. They break down. The people are life to fend for themselves. The best are replaced by the second best."

"I am trying not to do this."

"This is totally disorganized."

"I want to take my time with this."

"There is a game here."

"Let me take a look at the rules."

"This is silly."

"None of this connects."

"You needed to back off a little."

"I know the method."

"There is no method. Someone needs to talk to someone."

"We are getting ahead of ourselves."

"I trusted you, you motherfucker."

"I did everything that I needed to survive."

"You betrayed all of us."

"How is that?"

"I am not going to give up on this."

"You can take that shit to the grave."

"There are not other angles."

"You are a dumb shit."

"We are not going to talk about it!"

"You look as if you know all things."
"I know where to plug in."
"There is ethics."
"There are techniques."
"You need to come out of yourself."
"That would be too much biology."
"How does that work?"
"LEVELS! Some people are that good."
"You are trying to sell your shit."
"I showed my respect."
"We resented those twerps."
"Shitheads."
"Dirt bags."
"Trash collectors."
"I am going through your trash. I am going to find the answers."
"I was here last week."
"Are these signals?"
"This is all part of the plot to destroy the stability of human kind."
"You don't have to work on this."
"There is homeostasis."
"Some systems find their equilibrium in eventual collapse."
"How does that work?"
"There is no damper."
"That does not make sense to me."
"I have entered the bull shit world."
"Keep moving!"
"I have found my level."
"You have found your real estate."
"Take a sip."
"This is my space."
"This is my space."
"Do you have a fucking deed?"
"I am the keeper of records."
"You do."
"I am not even moving. You are not even part of this."
"I wouldn't hurt a fly."
"Where does this come from?"
"You still are a legend."
"Are you working with the forces of darkness?"
"The troika of tenderness."
"What does that mean?"
"Your brain has been replaced by sawdust."
"There is a witch here."
"I have seen too many people slip down."

"I thought that I knew his name."

"He is tame."

"This does not amount to much."

"You could easily be diminished."

"Where does that come from?"

"There is eventually going to be a showdown. That is what this community is about. When there are tow opposing forces, they eventually meet. And the opposition is resolved once and for all."

"Do you ever feel bad about anything?"

"You are a triviality."

"What does that mean?"

"Nothing seems to phase you."

"Back to the torture chambers."

"What good is any of this?"

"I am starting a dynasty."

"With what? You have no vision."

"I am going to last."

"Who is protecting what?"

"We need to go further."

"If our interests were represented by substantial forces, this would alter the balance of power."

"You are all a joke."

"There are applications of this vision. Things are arranged in one harmony. But there are others."

"This is history by the choice of breakfast cereals."

"I have all the box tops."

"Where is this going to lead?"

"To a final resolution."

"There is a final wave."

"No one here knows enough to anticipate what is coming."

"Is this a tidal wave?"

"A single day when it all comes unraveled."

"A great day for sewing."

"I can lick it off."

"All your fantasies come to naught."

"I am not prepared."

"I am super-powered. No one can stop me."

"I thought that you were the last honest man."

"I am just some guy who manipulates the turth to suit my vision."

"You lost the deed!"

"We are never going to arrive at the end."

"What is an end?"

"Hold on to me."

"Do not touch me!"

"I am on my land. I need to sleep. They are going get in touch with me."
 "Of course, the are."
 "Of course."
 "I am going to get dinner."
 "What holds us together?"
 "Do you have a sweet tooth?"
 "I have nothing that can keep me alive."
 "Another story is over."
 "Someone got arrested for saying the wrong thing to the wrong person."
 "Words matter down here."
 "I can't even remember half of what I said."
 "You can't close me down."
 "It is always dark."
 "How did that happen?"
 "I cannot help you."
 "I think that I have the method."
 "It is written on these scraps of paper."
 "Study it closely."
 "These are all scribbles."
 "Did you get what you wanted?"
 "I wanted the peas and green beans."
 "You want the real food. You need the staff of life."
 "I know how you work."
 "I am not moving. I am not working."
 "We are going to give the money."
 "I have the candy."
 "I am not going to make a move."
 "I saw that."
 "What?"
 "You stole my papers."
 "That is a roll of toilet paper."
 "There is invisible writing."
 "I am here to make people feel better about themselves."
 "How do you do that?"
 "I get them to clean the bul shit out of their heads. Then they are perfect specimens."
 "You make people feel bad so that they will feel good."
 "I have already failed in validating sight in an new and improved way."
 "There is going to be a fight after all of this over."
 "This is the fight."
 "If you don't follow the minor alliances, you cannot follow the major disposition of forces."
 "Everything is turned down a number of notches."
 "You really do not grasp the problem."

“Just show me where I should hold on.”
 “The heavens are starting to divide in two. A storm has been unleashed.”
 “What have we become?”
 “Warring forces.”
 “And what do we represent?”
 “Different ways of pleasing the individual.”
 “Through the self and through the commons.”
 “Some are destroying our way of life.”
 “Towards what end.”
 “Short term ends.”
 “Did the heavens really divide over that battle?”
 “What was that about?”
 “I stopped a major battle before it began.”
 “You cannot rest on your laurels.”
 “He could not be stopped.”
 “He was conspiring with the elements.”
 “How does that go?”
 “The only things that seem to hold us together are tearing us apart.”
 “You did this to yourself.”
 “How did I manage that?”
 “You did not read the tea leaves.”
 “And you finally showed up.”
 “I think that I could take you.”
 “I know who the heavens work.”
 “I am better at this.”
 “There are more words to use if your want to challenge the heavens.”
 “I had a lot of money. I was cleaned out.”
 “You are going to end up in hell if you keep on like this.”
 “I am already in hell.”
 “Can you define hell?”
 “When you are deprived of the necessary resource to survive, but you can see that
 promise before your eyes.”
 “You think that you can get away with shit.”
 “I am making it to the top of the world. No one will be able to touch me.”
 “You are only digging a deeper grave.”
 “I want it to stay now.”
 “And beyond that.”
 “We collect loaves.”
 “Why were there more after the final collection?”
 “What do I get?”
 “You need to collect all the spoons.”
 “I am hungry. I do not need empty spoons,”
 “There is going to be an opening. The good angels have to be fed.”

"The good angels must be fed."
 "Give them chicken sandwiches."
 "They are handing out free burgers. Get there before they are gone."
 "I don't do burgers."
 "Beggars can't be choosers!"
 "That is a cheap shot. If I don't want to eat burgers then I do not have to eat that shit."
 "I want my play."
 "What do you want?"
 "Just plug me up ,and make it happen."
 "I can pull it together."
 "Hold on with me?"
 "I have certainty on my side."
 "You are such a good performer."
 "This is not performance. This is real."
 "You have to learn how to sell yourself."
 "What are you doing to my stuff?"
 "You are being moved out!"
 "Hocus pocus."
 "What is that about?"
 "I am so far ahead of all of you."
 "You are not as smooth as you think that you are."
 "There is another show that is going on."
"I cannot hear a thing."
"I hate this game."
"Are you the referee?"
"I am trying to alter the connection between heaven and earth."
"That is some silly belief that is not going to hold."
"It is the only thing that really matters. There are people who care. And there are others who watch from the sidelines. And they think that they can tinker it together."
"I know how this hangs together."
"You showed too much of yourself."
"Between heaven and earth, there is an agreement."
"You need to live up to the bargain."
"I am going to change the electrical wiring."
 "You are going to understand this better than anyone else."
 "There is a place in the world where everyone can feel all powerful."
 "And what is this place called."
 "The shit hole at the far end fo the world."
 "What keeps you going?"
 "A reward. I can piece together parts that no one else can."
 "This is imaginary shit. This is some kind of illogical shit."
 "She is the only person who has any kind of understanding what makes the world hold together."

"There is no heroine hiding in the bushes. We are all living the present."

"I solved the problem."

"How did you do that? You drew funny pictures on your papers. And these silly articles that you found in nowhere."

"Do people care?"

"What are you afraid of?"

"I want everything to be like me."

"Where will I hide?"

"I need to figure out when to leave."

"No one leaves Camp Leon."

"I was told that no one leaves the compound. I got the hell out of there."

"You took the compound with you. Your head all says compound. You talk about Random. You cannot escape the bull shit in your world."

"He spoke badly about you."

"He can make this whole job go."

"You share the same outlook."

"You treated me badly."

"What is this about?"

"It was all a competition for my soul. And you took my soul."

"I don't know what you were talking about. I was the only person who wanted to be fair."

"Fair is not going to cut it."

"You need to do it now."

"There is a show. It needs to go on now."

"Get the fruit while it is ripe."

"This is taking longer than I expected."

"We have extra time."

"You don't know how to work the silence."

"The silence works by being off all the time."

"That is noise."

"There is so much noise in my head."

"How did you get in my house?"

"You gave me the key. This is my place too."

"I have no idea who you are."

"Look in my face. You know me!"

"You died on me."

"I have come back for you."

"What is this ghost shit about?"

"I am here once and for all."

"We each have our demons."

"You are a dirty person."

"Where does that arise from?"

"How do you keep yourself up?"

"It is all about what I eat."

"What are you doing?"

"I am peeling potatoes."

"Why?"

"I am going to cook them."

"That is all part of history."

"You will not always get what you want."

"I am not going to work for this shit. I want it to materialize."

"How does that happen?"

"I give of myself."

"That is a joke."

"Cook the potatoes."

"I am not even here."

"How do I cook the potatoes out here?"

"Use the potato cooker."

"How does that work?"

"I invented it for you."

"Thank the Lord."

"I want to pretend to be something."

"This is too far."

"What do you think about?"

"The coming of the giant potato."

"This is so far beyond me."

"I want to survive."

"You cannot live on potatoes."

"I am good with bananas."

"I want to leave this shitty place."

"I want to leave this shitty place."

"It was as if I was never here."

"I never was here."

"You are more than here. You may never leave."

"We all leave at some point in our existence."

"I can taste the hunger."

"I want more than that."

"Sometimes you live on those smells. You can smell the burgers outside of a restaurant.

You gobble up that flavor even if you may never touch one again."

"Any stimulation could lift me up. It could take me to another place."

"I am depending on you to get me free,"

"No one is ever going to get free."

"I need some more pictures for my book."

"What is in the book?"

"The stations of faith."

"How did I end up here?"

"You made a mistake. When you admit your mistake, your suffering will increase. That will empower the body to overcome any obstacle."

“Life does not work like that.”
 “That is the foundation of our existence.”
 “You are justifying the bull shit. That is what Random did. He spoke against Shadenfreude. But he developed his own form of persecution. The velvet fist.”
 “We are never going to escape. We have to make the best of what we have.”
“What did he do now?”
“He asked for more knowledge.”
“There are more sweets.”
“There is an equation to mediate the transformation.”
“I know that equation. Take this lollipop.”
“Is it universal candy?”
“You have attained universal candy.”
“There has to be an understanding beyond universal stimulation.”
“And what is that?”
“We create our own math.”
“We fold back on the same universe.”
“Greater stimulation.”
“Greater simulation.”
 “This is a straight line with no breaks.”
 “Microscope it, and you see the breaks.”
 “I am bored of this shit.”
 “I am out of here.”
 “Why do you always asks the stupidest questions?”
 “All questions are values, and they collectively lead to the same place.”
 “There is a limit.”
 “Not here. This is a pole.”
 “What does that mean?”
 “Stay away from the North Pole. It is going to melt.”
 “We are already dead.”
 “The Great Plague is going to return.”
 “We are the guinea pigs.”
 “Oink, oink.”
 “I am the great pig.”
 “Time to go.”
 “I am going to survive on my own.”
 “I have something hot coming my way.”
 “I am puking up all of creation.”
 “What gives you that right?”
 “I didn’t just come out of nowhere.”
 “There has to be a universal connection.”
 “You are going to end up forcing things.”
 “I only want to make it home in time.”
 “There is a money connection here.”

“Did you see his body?”
 “He is still moving around?”
 “It is some kind of after effect.”
 “He let the sickness get to him.”
 “It is not as sick as you think.”
 “I need to push beyond this.”
 “What does this mean?”
 “I cannot read that alphabet.”
 “You are not that aware. You are not that observant.”
 “The end means the beginning.”
 “That is stupid mystical shit. We are here as we are.”
 “The devils are engaged in a battle.”
 “I am back here for you.”
 “I know who you are. You have no soul. Then you get around some altar and sacrifice your young. This is not even serious.”
 “Why didn’t you ask me when you had the chance.”
 “I have only one last chance.”
 “One of our guys knows.”
 “Who is that guy?”
 “This needs to change.”
 “We are fighting for different things.”
 “I am giving my blood.”
 “How does that work?”
 “You need better exchange rules.”
 “The world is fighting over that arrangement.”
 “That hardly seems fair.”
 “Fair is foul, and foul is fair.”
 “Just make it mean what you mean it to mean.”
 “I cannot love all souls.”
 “Do not worry! They do not need your love!”
 “Who wants to know.”
 “The one who makes the books.”
 “The one who cooks the books.”
 “The one who cooks the cook books.”
 “You failed! It is burned!”
 “Fuck I thought I could win this game but I did not have enough to start with. I was having a great sleep. Some guy pukes next to me. This is not causing. This is bullshit. Me being cast back into the universe. I thought I had transcended this arrangement. I am running out of chances. I need to do this right. Are we on the same street? Are we on the same page there's a point when you have to leave the basement and come upstairs and see if it's all right as the radiation subsided it's safe to start again why do people think that they can see in the future is it safe to start again this would be the best place to sleep I can wake up and be ready to change the world I don't want to end up at the same place again I want to be quicker I want to be better

prepared nobody is prepared around here I feel as if I am exiled to a bomb shelter without supplies we have been saved but we will die of hunger this is terrible shape I feel all better now I feel broken I am in such a different place than you or you have to understand you have to understand what I'm working for them not just working for myself I have allies and they have powers what are you what are you trying to do overthrow Camp Leon. on these to survive and it's own way I'm not trying to disturb the balance of this place I don't even want to participate I'm only watching what's happening I'm not even included in the story I'm not pretending that I'm innocent c what kind of story is this what kind of history is this should I include you as part of the fantasy I know what you really want if you could get me on really get beyond the taste just like it for what it does how did I get messed how did I get here I only wanted to taste if you want something you never get it you got something of mine my phone number my identity my license I can't drive that is part of my XL to this place we could be friends you could give me what I have I could if you want. I needed that moment to make me needed to be consistent we need things to last like that when you hear the booming music in your head but no one else hears anything around here you know what that's all about I just want to go back to your room when you don't have a room you just have a box and you can feel the traffic shaking against there's no liberation in this it is just such a waste you're not learning how to hold things together it is all slipping from your's your hands you knew. You knew so well you're the only one who can put all this together you were the only one who put all the parts together but you didn't know what when where and every time you tried to be a couple of parts left over and you wondered how you fuck that puzzle up you want to the room you went to the white I want all of that and more I want to different song lover save me everything seems to be like it used to be everything that used to be seems like it is now I don't get it I don't understand something is wrong sometimes you just have to make the break. Can't get along with everybody sometimes you have to learn how to be perfect can't get along with everybody no one has the attention span just hold on wait to have a second and third chance nothing happens in the now what you're talking about you don't even have a pot to piss in you're trying to give advice of the world I have advised of the world I'm going to come roaring back I have a five-year plan. I have a tennis racket. I have friends. I have friends in high places. I have influence. I have a song going to make it all happen. I'm on the top of the world. I've got muffins and donuts. I've got bagels and cream cheese. I've got breakfast. You got stop me while there's still a time. You can't keep laughing at them. You have to be in there Jiminy and their hair Jiminy mayor Gemini this is too good. I thought he was the leader. He was only there in the fall over. I was looking for the boss, and ended up here you believe your own. I only want a little bit I only one excuse I didn't want to end up on the street but the street wanted me there's no lesson if there was a lesson I would've made it happen long ago there's that point but there's nowhere else to go. There's nowhere else to go. There's nowhere else to go. And you know this is it if you only had a song and be good this could be your song tap dance through your reality. Your love would be greater than us. I want one person to understand. I want one person understand. I want one person understand I am sleeping in your bed I am the three bears. and three I made it before Goldilocks. I impressed my regime I made something happen. How do you think I ended up like this? How do you think I ended up like this? I didn't start like this? I wasn't born like this. I didn't choose this. It shows me is in my circumstances. Tearing up the streets. This is my life tearing me up. Where they doing this to me. This is so stupid. I can't get to the

other side of the street. They shipped me off. They took all the parts away. Strictly up to beat me down for everything I had. It's tough being on the street. You're always a sitting duck. If you have a little more than the other guy, but see you. And I'll take what you have. I can't stand this. How do I get to this point I only want more I want to Headstart I want to be ahead I want somebody to understand. This is the weirdest thing that ever done. Now everything is public. Hello, hello this is not over I was at the aid consuming. And consuming me, I was cast out into the world and us. I have been left here for dad. I am going to struggle. I'm going to make this my own. People laugh at me. How did I end up this way? This is the only thing that I've ever wanted. Maybe the story was about you all along. Do you have the skills to make it. I can follow along the same map. I can learn. I work with somebody else already has. I got locked in the graveyard ones. They try to bury me among the dead. I was only sleeping there. I was not a body would been coughed up from the ground. It was a human being I wanted my integrity. I wanted to live. There are Kimberly things that have been made for me to make the mole. There are too many parts that connect other parts for me to ever understand. I just want somewhere where I can be safe. I want someone to give me a hug. I want someone to embrace me forever. I want someone to squeeze so hard that the life passes from out of me. I want to be redeemed. I want to come back for cookies and milk. I'm going to pass on the donuts this time. I'm going to pass on the donuts this time. I'm not going to eat the donuts this time. That's my resolution yes my five-year plan I'm not going to eat the donuts this time. Maybe a few sugar donuts. I'm not going to eat the glazed donuts this time. I'm not going to break the ice. I'm not going to break the glass. I want to stay out here until they find me. Who's looking for me? I need to keep this going. Do you remember when you said hello.? We are working on this together. I need more parts. I need some perfect cards. I'm up in the morning ready to go. Hi this is my friend. She knows things. Where this is going. We're going to treat you other for pleasure. And that's how I ended up here. I thought about one thing now that thing is my all the things all the things how did I reach this point? How did I reach this point? How did I reach this limit? They had a starting point. The following point. And all these mergers and acquisitions. Couldn't one person say no? You made me? You gave me powers that no human should have. This feels like the final round there's so much more to go I need you to pick me up and shake I need you to make me commonly human. I need you to shake my body. I need you to make me live. This is so wonderful. Do you understand? How did you end up like this. There were people who are following me. That's a vacuum hoses. Don't tell me I'm going to have to wait for this! Here's my train. I hope you're not fucked up I want to use you as a reference. I want you to be honest. I want you to talk about me as if I'm a friend. I want you to pass her on my body. What do you need a Kitcat? Is getting good. Need this Kitcat and you shall live. I understand it now. We are all going out for dinner. We are going to taste the notion. It's going to cause emotion. How does this all work? You need to make the move. I need to make the move. What did I do wrong. I don't have a place to go. I used to have a car. Now I have a box I am Steven Fisher I am Groundswell."

"This is everything that you have. You better use it. I like the smell I like the flavor I want you to share with me I want you to share everything you have. Look into my eyes. Let me know that I'm here. Mean something special to talk about this. I will I want to talk about this with you what can I feel what can I touch what can I know I have so many questions. This is a showdown between you and I tween you and me what do you have? What do I have? I want you to suck the

life for me. I want you to give me so much more. Propel me in the heavens take me to the stratosphere. I live in your arms. I survived but, your kiss. Can't give you anymore
 I REASSURED MYSELF. NOTHING IS THAT SEVERE. WE JUST SAY THIS TO
 REASSURE OTHER PEOPLE. I dismissed my fears."

"There's a crack in my brain. And all the words are seeping out. You were babies cracker asses, the reward you with a place in heaven. The wash you up, and give you a shine and your sparkle in the darkest night. Just get the term what the fuck are you waiting for?"

"I am only looking for twelve."

"Why not two or twenty four or thirty seven?"

"I can start at one. But that one always turn into two, then four."

"The buck stops here."

"That is one buck."

"The speaker has been beheaded."

"Someone burst into my office with the idea of killing me."

"A bad grade."

"I told him that I like him too much."

"This is going to be quicker than I thought."

"Eric."

"No, it is Eric's son."

"You are going to have to leave your house."

"My box."

"I need to find Eric."

"There should be a law that a person who occupies a space for a long enough period of time now owns that space."

"Like a squatter's law."

"Like lawyer's squat."

"How does that work?"

"They scare away the champions."

"That wasn't funny."

"Do you laugh like that to yourself?"

"I am seeing a friend."

"That is how I became an adult."

"I am only visiting."

"You are expecting something that is not going to happen."

"You are kind of cute. Do you want to join our group?"

"Aren't you some kind of weird cult who lives in boxes?"

"We are a close-knit organization, and we do live in boxes, but I think that it is unfair to call us a cult."

"You do have a kind of belief that turns you into automatons."

"Is this kind of nervousness acceptable for human being?"

"It is called skittish, and it could reveal deeper problems."

"I thought that you were supportive people."

"There is so much noise around me."

"It is called the New World Symphony?"
"They have a body waiting for me at the hospital."
"I am getting so sick of these parts."
"I am getting sick at looking at them."
"It is all functional."
"Whatever could that mean?"
"Do you mind if I stare?"
"IS THERE AN ORDER TO THIS?"
"You do what you want to do."
"I think that it will all make sense in the future."
"The future is the unraveling of ideas in times to make sense."
"I had hopes of escaping this exile."
"Enjoy what you have, and do not complain."
"This is going to be a long night."
"Night begins when the sun goes down."
"I need to sleep."
"I am consumed by a nocturnal."
"You must like this stuff."
"I am finally free."
"What does finally mean?"
"How simply do you want to do this"
"As simply as finally can get."
"This is going to turn into something sloppy."
"Hold on to the pickle."
"I want a rice cake."
"I think about this all the time."
"Can I be included?"
"There is a system. You have to eat all the designated rice cakes."
"What does this say about me?"
"I thought that you knew."
"I cannot catch up."
"Ketchup."
"What a mess."
"Dry cleaning."
"You are ripping me up."
"Someone took my car."
"You take another."
"I cannot take my going around myself as a way to quit going around."
"That is too much for me to follow."
"I want to sleep."
"There has to be another game going on."
"I am coming back to myself."
"Who are you?"
"I got lost in self-absorption."

"You are going to have to weave your way out of this."

"All of this was in the public domain. You could raid it and claim what you wanted for yourself."

"This is getting out of control."

"You have been chosen. In other words you have been unchosen."

"How does that work?"

"Someone picked me out."

"You are no longer the baby of the bunch."

"How did you wake up without."

"How could anyone listen to that obnoxious voice?"

"It is all about to crash."

"I have the metal parts."

"These were separated from each other. Then they were shaken apart."

"I did something terrible."

"I shook the universe."

"It all made sense, then it went kablooey."

"That was you."

"I have been looking."

"Are you keeping track?"

"Is this enough for you?"

"I get to have another body?"

"Did you pay for your part?"

"I am sleeping right here."

"I took some Tylenol."

"We don't have any pain killers. The only pain killers are pain itself. That is how we survive out here."

"Why is it out here?"

"Is our out here out of itself?"

"Make it happen!"

"We have taken longer than we expected to take."

"There is a duty to the self."

"I want a solution."

"I want to forget what I feel."

"The self is what it feels where it feels what it feels."

"Can that be quantified?"

"If you forget all your pain, will you forget all yourself?"

"I can clean up."

"There is no clarity."

"Do we have to stay like this to stay like this?"

"What is next?"

"Someone found a rug."

"How will that change the balance of conditions?"

"I never said no."

"This is so incomplete."
 "This is how the century got spun around."
 "You fit the part."
 "You can enter the show."
 "He asked as much of me."
 "So you have forgotten the essential moments."
 "He realized how to increase the pain, and the increasing of the pain caused the forgetting to impress itself. I saw myself as a perfect specimen."
 "We are moving into a new kind of manifestation."
 "Time to close up shop."
 "What does that mean?"
 "We are going to arrive at no new understanding here?"
 "What is the volume?"
 "We have had our fill."
 "Why does the language take us there?"
 "I am expressing a desire for my self-realization."
 "Was there a party?"
 "Is this going to waste."
 "I will take what I can get?"
 "This was supposed to be self-realization."
 "This is something that you know, but you cannot touch."
 "Take some for yourself."
 "You can join next time."
 "Take what is left."
 "You took away the pain."
 "There is calcium."
 "It is all so brittle."
 "You all need this."
 "I will need it tomorrow."
 "I want a balance."
 "I only want a blank check."
 "Are you a member of the club?"
 "I have this inkling."
 "I was known."
 "How were you known?"
 "We have to go back to the beginning."
 "Take this body."
 "There is no beginning."
 "There is a loop."
 "Jump on while the train is moving."
 "I am going to have to let this go to waste."
 "Did anyone say no?"
 "We all said yes over and over again. Camp Leon is an example how saying yes will

never lead to a positive resolution.”

“I thought that this was an invitation.”

“You are heading there quicker than you know.”

“Sometimes, you have to know how to taste it in its maximum form.”

“How do you bait a mouse trap? How do you bait a moustrap?”

“With mouse food.”

“I felt as if I had the answer.”

“There was always going to be two answers. One to eat, and one to get eaten up.”

“This is my education. Where do you start?”

“I am experienced.”

“What does that mean?”

“Let me read the rules.”

“There is a matrix which goes along with the rules. A perfect performance. A one. A not so perfect. A less than one.”

“This is deep.”

“It is on the skin.”

“Deep is some kind of weakness.”

“I am getting something that I cannot touch.”

“Take what you will.”

“I can help you find the other body.”

“This looks like a show down.”

“Don’t get down if you don’t want to go low down.”

“Words are not going to cut it.”

“Take it, or I will throw it out.”

“THIS IS THE PERFECT COOKIE.”

“The machine got out of control.”

“How can perfection exist with imperfection?”

“No one is allowed to play.”

“There are two lines where this all comes together.”

“Are you pledging your allegiance to a principle?”

“There are people who are making it happen.”

“I am having bad dreams.”

“No one dreams here. This is what is really happening.”

“I don’t need you analyzing my dreams.”

“This is the form of truth.”

“This is where the loops come together.”

“We will have to return to these problems when we make it to another planet.”

“I have a rich fantasy life.”

“What are you hoping for? Caramel rice cakes.”

“Is that a finite or infinite dream?”

“If there is a value, it is finite.”

“But the process is infinite.”

“Take the limit.”

"Everyone has tried."

"I want something unique."

"Nothing is unique here."

"What do you mean?"

"Do you think that this is a perfume factory?"

"I was wondering."

"I need to make my claim."

There were higher values. But they seemed to manifest at the same levels.

"Come in, Camp Leon."

"Who is Leon?"

"Is there life?"

"I want the end."

"I want fair distribution, and I want more distribution."

"You are chosen."

"No one is chosen."

"Would you eat that?"

"I am trying not to give in to my desperation."

"This is something more perfect than perfect."

"Are you being honest with me?"

"No, you are not?"

"We are faking this."

"How can you say that?"

"If you believe it, you do not see it."

"There are protocols."

"I seem to understand."

"There are rankings."

"I will remember all of them in the morning."

"I need to write faster."

"I am out of outs."

"Get a pen."

"No one writes anything down."

"It is all memory."

"I remember all so well."

"Honey, we are going back to where we started."

"I am glad that you are willing to play along."

"I only know how to die here."

"There is redemption."

"That is crap."

"Wake me up."

"The day wakes you up."

"The night puts me to sleep."

"I want to write longer sentences. I need to express the danger which I face I my life.
This is not something that I created."

“Do you want to return to our place of origin?”
 “I am dying here.”
 “No one dies. They disintegrate. They never existed. Everything is erased.”
 “I want a doughnut named in my honor.”
 “That is so tragic.”
 “I have been forced to be this way.”
 “This is totally immaterial existence.”
 “Spirituality.”
 “Why don’t you give me an original answer?”
 “I have everything else that I want.”
 “I thought that there were no parts.”
 “Like a chicken filet.”
 “It is all a matter of cutting.”
 “There is a part of my existence where everything is pure. All cut out.”
 “Mellon balls.”
 “It is a lot worse than that.”
 “It always ends the same way.”
 “As it was in the beginning, so it is now, and it will always be.”
 “Shit.”
 “I am talking to a friend.”
 “I can have whatever I want.”
 “Everyone can.”
 “You will have all protection stripped away.”
 “Are you using words that make no sense to you?”
 “Do you really know what is happening to you?”
 “This is very confusing.”
 “I want to go face to face.”
 “Will we make it to the end.”
 “I can take this slowly.”
 “This is ridiculous.”
 “You are a servant to your superstitions.”
 “The world is a superstition.”
 “Light is the first superstition.”
 “Fair is foul, and foul is fair.”
 “I am looking for fair distribution.”
 “You haven’t even eaten today.”
 “I eat my morality. I live on what is inside.”
 “We need to find some day-old doughnuts.”
 “We will never find what is essential.”
 “I like simple sentences.”
 “When you laugh, you can truly understand the vibrations which move the universe.”
 “We are getting closer.”
 “There is no closer.”

"A tyrant with no audience."

"An audience with no tyrant."

"You are trying me."

"I am looking for Leon."

"There is none!"

"How did Camp Leon start?"

"It was started on a basic principle. Those who have it can get some more."

"Those who do not have it cannot have it taken from them."

"I love that."

"I am getting further out there."

"I want to understand. Everything comes easy for you, and you still complain."

"This is the only thing that seem to matter."

"I do not have the right angle on the universe."

"That is not going to get you the glaze."

"I could live on cucumbers."

"That is not going to get you the glaze."

"This was supposed to be a good day."

"We will eat."

"This is hopeless."

"I am going to stay here, and no one is going to bother me."

"Are you really going to give me what I need to triumph?"

"You gave me credit, and you took it back."

"Is it necessary to dominate someone else in order to advance?"

"That is what I hate about this place."

"You are not that open to what you claim to be open to."

"Don't hit me over the head with that book."

"This is right, and this is wrong."

"Do you think that we are going to overturn the system?"

"You do not understand!"

"You do not understand!"

"Do not raise your voice."

"I am fighting with myself. The camera is going to pull back, and I will no longer be talking to someone else. I will be talking to myself. And she will have died of her own hand. But there is no hand. And there is no she. This is very clever. I created this story myself. I have little real experience. I did cross from my bedroom to my dining room."

"What does this say?"

"I thought that you went away."

"I thought that you tried to leave Camp Leon."

"I tried to leave, but the camp kept coming back to me."

"This is not what I care about."

"What is Camp Leon?"

"It is an enclave of homeless people. It is bordered by these four streets. You can see them on my map. And there is the treasure which we are all searching for."

"Is this a real map?"

"This is more like an equation which represents something in the world. But you have to connect to all the right coordinates. Otherwise, you are not going to get a good representation."

"No one cares."

"The doughnut makers care."

"I can smell the bakery."

"That is another part of time. Your belief is getting the better of you."

"Soon, I will be completely alone."

"Just me and you."

"I want you to give me more than that."

"I am running away with my fantasies."

"There are no fantasies here. You have to take now for now."

"Is that some kind of self-enrichment?"

"I can do it all so well."

"You are not on my level."

"You are not level."

"I am trying to overthrow it all."

"BANG! BANG! BANG!"

"We all understand."

"I cannot hear a thing."

"I do not want to hear."

"I am totally out of here."

"This is better than food."

"Don't tell anyone."

"I am getting delirious."

"Delirium comes with a realization of the power of the self."

"There is a third time through here."

"We have entered another world. I have admitted all the shit which surrounds me."

"I am going to get him before you know it."

"The rusty spanner argument."

"How close are you both?"

"There is never another. We all end up heading for a constant sameness."

"How can you act that way without a program?"

"It is all about being out here by yourself."

"How far out are we?"

"We are further out than we can ever know?"

"Why does it work like that?"

"What was your task?"

"I need the answer today. I need to make it out of there."

"That is perfect."

"There is an overhang."

"Cut it off."

"The world is going to hurt. The world is going to bleed."

"I need to hit that mark."

"I am off myself."

"I want to wake up as the same person."

"There were moments in my life when I needed to remind myself who I was."

"I have really studied this."

"You have no reference point."

"Why are you pretending?"

"There are no points."

"Camp Leon has four quadrants. There are boundaries. There is geometry."

"Do you want to learn about this?"

"I do not understand."

"Our knowledge will not get us out of this place."

"I have studied the protocol of the US intelligence agencies. I know what are their intention. I know who they employ. I have been able to infiltrate these organizations."

"What are you smoking?"

"There are sites which reveal all kinds of shit. I am getting close to understanding the points of perfection."

"Don't go off again!"

"What is the problem?"

"Your complaints are not going to make anyone sympathetic. We are meant to be seen not heard."

"We are not little children. We will not be exiled to this existence. We want more for ourselves."

"There has to be more than this."

"My body is not responding."

"It will."

"The first day that you wake up as completely whole."

"He has everything that he wants."

"GIVE ME A DOLLAR!"

"Do I look like your bank?"

"Why did you approach that guy?"

"He has satisfaction. He held on to things which I could never have."

"Seven days in a week."

"What are you going to give me credit for?"

"I have seen this before."

"There is another level of explanation."

"I was a star. The world watched me in exposition. They told me to do another dance. I shook it all up. I made it mean something. But it never meant much. I am going to have so much fun. My head is going to fall off. I am going to put it back on. People are going to wonder how I got to that point. It was work and a plan. I watched others. I was observant. Is this the life? I want to scream at you."

"You are no different than anyone else. You think that you can triumph. If you could get ahead, you would get ahead of yourself. No one gets anywhere. We all die here. We are dying here."

"You are no poet."

"Poetry does not advance you."

"I know things about food. I love potatoes."

"I never had a chance."

"No one does."

"Am I supposed to care?"

"We are not going to make contact."

"I am going in."

"There is only one other time when I will be able to make contact."

"We are reaching deep shit!"

"Where is a country that we can occupy?"

"Who can we put down?"

"There is war down here."

"We are all prisoners in Camp Leon."

"Why can't you walk out?"

"This is all about a promise. A promise for tomorrow. A promise of food. A promise of shelter. We share that. Elsewhere, no one notices. They do not notice because they prefer to walk over us. They cannot see. Otherwise, they would stop. They love their prosperity."

"This is all fake."

"You say open up, open up. But you are lost in your own mind."

"Can I play?"

"This is not a good game."

"It eats you from within."

"I am not going home."

"I needed you to give me something of yourself."

"This will eventually be done, and I will be done."

"Who is running this?"

"There are no leaders. Leaders will destroy us."

"We are engaged in a battle."

"We are not sure who are enemies."

"What do you know?"

"The glass is half full."

"I am half and half."

"This hurts."

"Are you part of the problem, or part of your problem?"

"How is life any different here?"

"It cannot last. It explodes as it comes into existence."

"That is a terrible way to think about our humanity."

"We are coming for you!"

"I want the touch."

"Why can't you give me what is mine?"

"You are interrupting me."

"We all seem to love the same thing."

"We cannot even remember what is here."

"I am not following."

"I am running the show."

"Show over."

"Do you know what I want to ask."

"Did you dress for the show?"

"You are better than I could have imagined."

"I won when it mattered."

"Do you have more for me?"

"I am on top."

"You are going to take more than that."

"The hospital can give us what we need."

"They are not going to let us in."

"What if we planned to rob what we needed?"

"Then we would need what we robbed."

"This does not sound good."

"There has to be a principle."

"I feel as if this is some kind of experiment which got out of control. That is why we have no motivation. They have sucked it all out of us."

"What are you willing to give to me?"

"I need to talk to you. I can get you out of here."

"No one seems ever to get out of here."

"Are you listening what they are saying to you?"

"They are speaking to me inside of my head."

"This is way beyond."

"I do not want to lose."

"I could have used some help."

"Where am I?"

"You have arrived at Camp Leon."

"Who else is at the camp?"

"Others have joined in and joined up."

"I do not want to go out."

"Stay in the safety of the camp."

"I can smell disease everywhere."

"Where are the limits of the camp?"

"I chased some guy in here who stole my phone."

"He got rid of it. He got rid of himself. You are not going to find anything. He rendered it non-existent. He eliminated all levels of functionality. He absorbed it all for himself."

"There is nothing that I can give you."

"I want my identity back."

"You can feel that there is a power here. And it is pulling you in. It suck you in. The pressure is immense. It pulls you in. You feel that shaking. The hold. And you are stuck."

"I want to walk out of here."

"The computer is giving us what we expect."

"We are not going to see the answer coming from the heavens."

"No one is really escaping."

"Can you understand?"

"I am not in touch with people who get it."

"We stay here forever."

"I need to find some way to escape."

"Haven't you stated your case? What are you afraid of?"

"You need to take care of this at home."

"There are things that I can do about it."

"Move the world one day ahead."

"You did not succeed."

"Let me eat one more."

"You found a balance."

"The camp expands."

"This place is inside of me. It is everywhere. How did this happen? I do not want to be processed. I feel as if there is force which makes things happen here."

"You have given in to something massive."

"I do not want to be held in here."

"I need to be more active."

"There is no real increase here."

"You found a way out."

"The insects or the rats are going to get me."

"This is all so automatic."

"I do not want to remember."

"Camp Leon is where you need to go."

"There are no mysteries here. There is no revelation. You almost made it, and you backed off. Is there a book report? What are you doubting?"

"How are we going to use words to frame who we are? We could use repetition. Reassuring words."

"I was not born yesterday."

"You cannot have it both ways."

"You have shown me that you are crazy. You have corrected things that do not need correcting."

"You should use a machine. You would do a better job."

"I do not need your bull shit!"

"Where do we take this from?"

"Is this your bible?"

"I am not looking for believers."

"You have a cause."

"I am not devoted. All that I can do is work to get a dream that I lost."

"We are wasting so much of ourselves."

"Do you really want to know? I want you to be enthusiastic."

"Is this poetry? I hear it over and over again, and I do not learn a thing."

"I have an objection."

"He acts as if he has some kind of power. What gets him going? He is sucking the energy from all of us."

"You treated me like shit. And for what?"

"I am going to need this when I go in here."

"What is that all about?"

"I am learning to hate my body."

"What is that about?"

"I do not like what I have."

"All this shit is real."

"It is happening to us more than anything."

"Do you realize that you are over your head?"

"Is this a fair fight?"

"I am telling you that you do not understand. You really do not have the same experience that I do. But do you want me to put it in simple sentences. I did not plan to come here. And I fought against it. One day, I asked where am I going to go. There wasn't some country club waiting for me. I couldn't even get into some crack house. I was stuck out in the cold. And I was going to stay. I couldn't raise myself up that high. I just gravitated to this place. Can you understand what that means to someone? There is no magic here. No one is going to hand out a prize. A blanket is a valued possession. And we hang here as if there is little hope. And we choke on our hope. And we grope in our darkness. But we are there. We are stumbling around. We are working with our story. We are tap dancing on that stage. I see a different end. That is not how I fought. That is not how it is supposed to be fought. It just is."

"Do you want to repeat that story?"

"We were working together."

"Who is we?"

"I do not know. I have these beliefs. We could take this place and turn it into more. But there are these petty quarrels. What do we have to save us?"

"There is something that I need to make clear about myself."

"Is this a public confession?"

"Have they done something to our insides? Have we been sentenced to this place? You will never understand. You don't know what happened here."

"I want to know if the touch could give me something healing. I am here in darkness. I do not know what is happening to me."

"Look at my face. This is who I am."

"How far back do we go?"

"I am looking at my reflection in a muddy puddle. It is all me. All shadows. This is the outline of my imprisonment. How do I have other words?"

"Can't you just take us in another place?"

"Is the gig going to shut down?"

"You people just want free stuff."

"I want free love. I want people to respect me."

"Can't you work?"

“What I do out here is work. I am working to arrive at a resolution.”

“Are you two working together? Why do you people hate yourselves so much?”

“Are you lazy?”

“It is a struggle to wake up. I cannot even find who I am. Do you understand? My words are getting away from me.”

“Why do I have to put up with this?”

“Are they manipulating us?”

“I think that I have found some kind of sense. And it all dissolves.”

“We go back to the wilderness. This is the me. The now of nothingness. I cough up what I was. How did you do it this way?”

“Does this give you some kind of rush?”

“What really pissed you off?”

“You are taking this too far. You did not put the book together.”

“I want it to be a little better.”

“What did you do? They put you in a hole. You do not have a soul. You have taken from others.”

“I do not have it in myself.”

“We are the representatives of the shit.”

“You want a leader. They are all leaders.”

“They want a career.”

“Who are they fighting against?”

“This is worse than shit.”

“Are you the one who is going to put the whipped cream on the ice cream?”

“What are you doing?”

“I am trying to mine what is in there? I am still held by the stupid dream that my inside is the key to getting out.”

“Did you pay for this? You are a winner. You have survival of the fittest. You are not going to end up like this.”

“What is inside? The germ is in you heart.”

“I have seen this before.”

“We were in this show before. You offered me so much.”

“I did not want to look at myself. I hated what I had become.”

“If you keep marking this wrong, I will report on you. I know what you are protecting. Are you going to hide behind your free life?”

“No one is free. They are all victims of the germ.”

“You have it all over me.”

“I used to do this. I could give it, and I could take it.”

“Know what you took from me.”

“I didn’t take all that I could.”

“We are all left to this.”

“Look to the sky.”

“These buildings and other structures block my view.”

“This is all so obvious.”

"I am closer to the action."
 "This could be your story."
 "Have you got away from work?"
 "There is no work."
 "He is waiting for you."
 "I do not want to be read like this."
 "You do not understand, do you?"
 "My real is not your real. You think that we share the same material. They take my cup from me."
 "I would drink that."
 "I am being rotted from within."
 "You are good."
 "I would never drink that."
 "None of this is what it seems. There are rattlers everywhere."
 "I want something that no one can give me."
 "I am in the office."
 "This is worse than I could imagine."
 "There has to be some push back."
 "What do the other kids think?"
 "What does he really think?"
 "I made a mistake the first time. I got back to it."
 "I was way ahead on this
 "There is no ahead here. It is all about your present breath."
 "You are denying what you have inside. You could know so much more. What is the impediment. I know what is wrong with me"
"I know what is wrong with me. But you have made a god out of money."
"We want to survive."
"This is not survival. You are destroying yourself."
"We are all far beyond who we are supposed to be."
"There is a lot of work here."
"I am tired of this pretense. You are not taking me seriously. You are playing kid gloves."
"This is fake. He does not get it. And you get it worse. You are going along."
"What am I going along with?"
"There are rules. There are ways to get in and out."
"You have to be crafty."
"What does that mean?"
"You do not have to go along."
"This is not real emotion."
"One year, and it is all gone."
"I need to get pumped up."
"You are going along with it."
"I cannot get out of my emotion."
"What does this mean?"

"I need to escape my seeing."

"How does that work?"

"I did something so wrong. And I cannot live down."

"The ships are going in opposite directions."

"I get released in the streets. I do not have motivation to make it happen."

"I am glad that you did a perfect job."

"I am better at this."

"I can't stop."

"I am a member of a group."

"I cannot start."

"You are going to need to do more than observe. You need to create a program to escape from this place."

"That is why I am going to stay here. I don't know what a system is."

"A system is something that makes everything hold together."

"How does that work?"

"We are not doing well."

"Honey does this right."

"I apply myself."

"This is more than I can take."

"I am already out of this."

"Is this a committee?"

"Are you going to hold me in here."

"If you can explain why you can do well on your own, we can let you of this place."

What is the problem inside? Why can't we get past this?"

"You need to give more. Get it down, and give more."

"Are you the coach?"

"I want to win the game."

"I don't control this."

"Someone needs to pull the plug on all of you."

"None of us change. We all crawl back in the hole."

"There are rules, and you do not learn."

"What am I supposed to learn?"

"Jail house rock."

"What is that?"

"We are in deeper than that."

"I know what in is."

"This is in in. There is no way."

"I got seconds."

"What did you spend money on?"

"I am returning to myself."

"I am going to find some coherence."

"I am not going to move."

"I am not affected."

"Do you think that someone chose this shit? Did someone want to sleep in shit? Did

someone embrace the garbage of experience?"

"This kind of shit came from shit."

"We are heading back to where we came from."

"I bounced against a wall."

"Do I want my life to crash like that?"

"I was trying to get to that level."

"Why don't you wake up and get this done."

"Can you last the time?"

"We are going to need more to make it happen."

"I need to push back on this."

"You really do not understand."

"I have a book. I read out of it everyday."

"I cannot even see three inches in front of me."

"Let's do something new."

"You never did anything new. This is so boring."

"We were going somewhere."

"You have put things in their place."

"At last, I see the answer."

"I see the fucking light."

"Amen."

"It has come upon me."

"We are such great friends."

"You lost whatever you had."

"I am breathing in."

"There is someone who is coming after."

"And after the after."

"Did you know that the inside is the outside?"

"No, it is not. We cannot get out."

"What is holding us. There are no bars."

"Who is in charge?"

"I have been through this before."

"What is happening to me?"

"You are transforming."

"I am dying."

"How is that?"

"I can feel it pushing me from the inside. This is so monstrous. How did I become like this."

"You found things that you liked to much."

"That is a terrible way to put it."

"That is what we have become."

"I am crawling the ground like a giant water bug."

"I am basic."

"There can be so much in my life."

"I am getting close to an end."

"Are you tired of doing this."
 "I cannot identify. I make things happen for me."
 "Can you do it clean?"
 "The world is closing in on me."
 "That is a terrible way to think about it."
 "I keep coming closer to it, and I return to myself."
 "I can make it simple."
 "There are so many layers to making it simple."
 "Try one!"
 "I want to eat. I want to eat now. The closer that I get to it, the closer I get to making it go away."
 "I want to eat a perfect food."
 "What do you want to remember?"
 "That I did not fall all the way."
 "You are dragging a shit hole."
 "You are scraping against shit."
 "You will never be wanted in this place that you call home."
 "I own this more than you could ever know."
 "I know how long this has taken."
 "We were working together."
 "Why do we keep coming back to the same place?"
 "You conspire to make this happen."
 "You need to be seen and not heard."
 "You have one more."
 "Knock and come in."
 "You have gone around so many times."
 "Three revolutions around, and you are there."
 "I need to go through one more rotation."
 "I almost had the answer."
 "I was getting more than I started with."
 "I can protect myself."
 "I am glad that the schedule remains open."
 "We have almost made it."
 "If we have made it, then why do I not feel closer to an answer."
 "It will come from the heavens."
 "See that guy passed out over there. He has an answer."
 "He is caught in the shit."
 "I do not want to be like that."
 "You can be rescued."
 "Is this going to end?"
 "She came with the guy in the funny shirt."
 "Where is he?"
 "I never saw him move."
 "I think that I see an opening."

"I am going to pass through."

"Do you want to watch?"

"Can I see what you are made of?"

"These people are running around naked in the street."

"They are really fucked up."

"They will wake up."

"You can't wake up from this."

"I am so full of guilt."

"You can tie the guilt together as a way of escaping from yourself."

"This makes no sense."

"It is the only sense that makes sense."

"You do a little bit at a time until you get to a cure."

"I am counting everything that is part of the solution."

"I cannot keep track."

"I was looking for him to lead me to a better place."

"What are you doing?"

"I am going to make it out of here."

"Sleep is the only rescue."

"She is going to meet me in the netherworld."

"She is narcosis."

"It is going to be worse than that."

"We are gnawing on our belief."

"Whew!"

"Is this something that you care about?"

"I pulled her from a nightmare. There she materialized to challenge me."

"I AM SUPPOSED TO SUFFER, BUT I AM NOT SUPPOSED TO COMMENT!™"

"The showdown is coming."

"No one wants to win."

"You scared everyone away, and what did you gain?"

"There was too much anger here."

"We are moving the tale along."

"I wish that you would look at me with a frustrated look. It suggests that you care."

"Is this prophecy?"

"Every word is savored."

"I need to get away."

"There is no place for you here."

"COPY THIS!"

"I want to will these words."

"We are almost clean."

"How did you do that?"

"We are among some very sick creatures."

"Do not leave me like this!"

"I never thought that I would make it through this."

"You had a relapse."

"You are perfect fantastic for now!"

"Pose for me!"

"You needed to dress the part."

"I look like the part in spite of myself!"

"I think that I banged something."

"This was so bad."

"It will get worse."

"We will be sworn at."

"Everyone is spoken for!"

"There is an imperfection in the program."

"They put things in our skulls."

"What do you have left?"

"This is excellent."

"I am picking up speed."

"Everything that was taken from me has been given back."

"You pile nonsense on nonsense."

"If you have the equation, you need to tell me."

"The rottenness is going to hold."

"There is going to be something bigger coming along."

"We are all going to give in."

"We never had a chance."

"They were not real."

"What were you defending?"

"You do not have anything which is going to allow you protect yourself."

"Is this a sports bar?"

"How did you get free?"

"I was very assertive."

"I cleaned the contacts, and I came to life."

"That was one of the most difficult things which I have ever done."

"You want me to kiss you. You want me to agree."

"I came down here to ask for my freedom."

"No one gets free."

"He gets a kick out of it!"

"I am so good at this."

"Slurpee."

"You are too affectionate."

"I am not getting out of here."

He was under observation. Nothing that he said seemed to make any sense. I felt as if he was destroying himself. It came down to two things. We worked with him. We found a remedy.

"I really feel no better."

"Everyone wants to sit around and think that they are going to get some kind of answer."

"We are not getting anything."

"You are my better half."

"That is what I said to that shit."

"The only thing that helps is this stuff. It cleans out my insides."

"It makes the synapses react in a much more straight forward way."

"I only want cash."

"I thought that you were bigger than that!"

"I assumed that I had powers which I did not really have."

"This is all going backwards."

"I feel better."

"You are having flashbacks."

"That is not so bad."

"Your abilities to discern the work have been reduced."

"My hero is here now."

"It is better to give than to receive."

"I think that I can solve every crossword. If only I could see."

"This is better for me."

"You know what I am writing about."

"Why do I have to stay here forever?"

"There is not here."

"We are surrendering ourselves."
 "The country is against us."
 "Stay in the city."
 "Be on the farm."
 "These are problems which they will not solve."
 "I have a partner."
 "I have a helper."
 "I know someone who can make it right."
 "You were a clinic. And you are acting as if have gone to heaven."
 "I am doing a lot better at this."
 "I spilled water on my circuitry."
 "You are sounding silly now."
 "What makes you tick?"
 "Liquid."
 "How did I get done here?"
 "There was no chance."
 "This was the worst of the worst."
 "It is a failed strategy."
 "You know what is going to happen on Thursday!"
 "I am going to be fed by the angels. "
 "I want angel food."
 "Get this stuff to work."
 "I am not going to drink that shit."
 "This is a warning."
 "We are living in a sea of germs. We will never come up for air."
 "I was almost there."
 "You are exaggerating these small victories."
 "These are two worlds."
 "There will have to be cooperation."
 "We are going to invade the world."
 "What can you give out?"
 "Who is the reader?"
 "Where do we eat for free?"
 "I can no longer digest."
 "I am catching up."
 "A constant refrain."
 "You cannot do this."
 "I need another blanket."
 "I close my eyes, and I am no longer here."
 "Where did you steal that from?"
 "There are so many pressures on me."
 "I need to attain escape velocity."
 "It is difficult to attain on your own."

“What do I need to supplement my understanding?”
 “You are deep down there.”
 “You need to concentrate if you want to figure out these things.”
 “I am doing my best to concentrate.”
 “There was a slight disorder.”
 “I feel it.”
 “I share it. That is why I understand. We are all sharing the same disease.”
 “I cannot afford to feel that bad.”
 “You won’t!”
 “None of this was close.”
 “The bunker mentality.”
 “That is when you snap!”
 “You made me think that it was better than it was. You never read a book. You made everything easier. You had someone rewrite it so that it matched what you wanted for yourself.”
 “I am not getting enough for this to make a difference.”
 “We are almost there.”
 “There are late results.”
 “There are people who are willing to accept this no matter what.”
 “Some places are willing to change.”
 “Take this for whatever it is.”
 “Did you find the inside.”
 “I got all lit up.”
 “Someone took the stars down.”
 “There is an extra participant.”
 “I always felt other than myself.”
 “The words are just catching up.”
 “That is my song.”
 “There is no way to make me into a well-behaved citizen.”
 “Now, is the time for all good boys to eat their chickens.”
 “I am ready to go liquid.”
 “I am loving longer, but enjoying less.”
 “You are still out here with me.”
 “I want her to rescue me.”
 “It is an explosion in the heart.”
 “It was such a mess.”
 “We did our part.”
 “I am so good at this.”
 “I am eating my heart out.”
 “I can never have what other people have.”
 “I want a mansion.”
 “I want rewiring.”
 “We are going to take you apart and put you back together again.”
 “They cannot stop us now.”

“Maybe, he will roll over.”
“He did!”
“It all came out!”
“I saw that.”
“I have my humanity.”
“None of us do. We only want to survive.”
“I need something else.”
“I am not prepared to think about it.”
“This is the only thing that is solid in my life.”
“I could think about this forever.”
“I am glad that I am not at one of those parties.”
“I need to learn to deal with death in my own way.”
“We are both alive.”
“What if we are only one person who is seeing himself in two different ways?”
“I am going to get something that no one wants.”
“The votes are in.”
“This could be a protest.”
“I am not going to eat popcorn.”
“I want a burgers.”
“I am going to eat steak.”
“I would have to be drunk to read through all of this.”
“I am surprised how easy it is now.”
“We are not in the same show.”
“I can ask. I can make myself something bigger than this.”
“You are not so special at this.”
“I got taken apart.”
“There are rules.”
“That is why we are out here together.”
“Let me take over.”
“There are different rules.”
“It is magical.”
“We are all liquid.”
“Do not piss on me.”
“Where is this going?”
“To something hellish.”
“I will make it home sooner than I know.”
“We got crushed.”
“Do not try to take my place!”
“Are you some kind of leader?”
“I tell you what to do.”
“I had a past. I was a great writer. Do you even read?”
“I am your god. I inspired you to do everything.”
“No one is willing to accept this.”

"We could have shared."
 "We cut it down the middle."
 "I am not going to live on cucumber pickles."
 "Food is not going to liberate us."
 "We need ideas."
 "We cannot live on our ideas."
 "I was doing terribly. I ate some doughnuts."
 "That was enough for me."
 "We were not close."
 "This is going to get better."
 "How did you get yourself together?"
 "I had memories of my past. I was a great writer."
 "I was a god."
 "I had special powers."
 "I need to be somewhere."
 "I am somewhere."
 "We are converging."
 "Where we start, we end."
 "This is going too slowly."
 "We do not share things."
 "I am over the top."
 "You are being a bitch to me."
 "None of this can change."
 "We can blow this apart!"
 "I did not have a chance."
 "You made it back."
 "What did I make ti back with?"
 "We are into different things."
 "I love your poetry."
 "This is my reality."
 "I am wallowing again."
 "You will not relapse."
 "This is even."
 "I want something which I cannot have!"
 "I want the American dream."
 "This is the American dream. We do not have to worry about a quota."
 "I want to feel really good. I want food."
 "This is love."
 "Love of nothingness."
 "I am so good at bouncing back."
 "Isn't there a game with this life?"
 "This is serious with so much suffering."
 "Pose for me!"

"It is always the same."
 "We are not going to wait with you until the end."
 "BINGO!"
 "We have a winner."
 "I looked this good when I woke up."
 "Fuck off!"
 "We need to break into that hospital pharmacy. It is easier than you think."
 "The hospital is a prison. Some rogue can get us the shit."
 "Doc or nurse."
 "All of the above."
 "A pigeon."
 "It hurts so much. I do not want to feel it like this. Take away my pain. Give me a way to float."
 "Ice cream in champagne."
 "We have great dreams."
 "Coca cola and piss."
 "I don't give a shit."
 "I will get rescued."
 "There is an angel on every corner."
 "Give me a cigarette."
 "Give me some ice."
 "Cool me down."
 "I need to get away. I need to sleep."
 "We all do our part."
 "I need to stop."
 "What is behind this? Why do you go to places where you don't belong?"
 "You are an out and out out."
 "We are coming closer to the planet earth."
 "I communicated better when I could not communicate."
 "What do you need to say?"
 "I want to tell the world how much I love it."
 "How do you get on?"
 "There is nothing accurate here."
 "You are neither serious nor engaging."
 "The party is over!"
 "This is going to be a nail biter."
 "I am completely over this."
 "I want a different version."
 "Nobody took a chance on even Steven."
 "This is going to be a nailbiter."
 "I am cutting myself in two."
 "This is one side, and this is another."
 "We are always together."

"I quit, but they kept me in there."
 "We are all protesting."
 "This is a debate."
 "Should I eat today? Should I cash in my 401K?"
 "I didn't know that you were that good at getting a victory."
 "I am stealing potatoes."
 "Chips."
 "Nice!"
 "There are no surprises."
 "It always ends up the same."
 "I am keeping track."
 "We will be billionaires before the day is out."
 "This is fair enough for you."
 "I am going to give it away."
 "The next one is the big one."
 "WE HAVE BOTH BEEN THROUGH THE BIG ONE!"
 "Honey, I do not want to get kicked out of here."
 "You need to buy a meal."
 "I am waiting for my benefactor."
 "I am looking for the silly one."
 "What is this about?"
 "I cannot stop!"
 "I need one more book!"
 "These waters are treacherous."
 "What does it say in my biology?"
 "There is a going up."
 "And there is really going up."
 "You are absolutely right."
 "I am so smart now."
 "You are bleeding out."
 "I do not want to be like that again."
 "Who said that I was like that?"
 "This is supposed to be better than this."
 "I will never warm up."
 "I need to win this one."
 "This is all made up."
 "Do over!"
 "There is this other place that gives better than it receives."
 "I am lying here."
 "You will be saved."
 "I am in a long line."
 "I never followed anything that you said."
 "Listen carefully, mother fucker."

“Why do we describe ourselves in that way?”
 “We are the rejected.”
 “You cannot come back from this exile.”
 “Have you completely dried out?”
 “I want to get turned on.”
 “Today was such a wash.”
 “Why did I feel like you. I am a writer, but I have not written in a million years. I will not write again. We will be partners in this shit. And this is all that I will have to show.”
 “I need to get things done.”
 “I am taking on a bigger challenge.”
 “What do you want to hear from me?”
 “I have got style.”
 “I can do this good.”
 “I do it well.”
 “I am just a shell.”
 “We are all shells.”
 “What about the chocolate insides?”
 “That is all shit.”
 “We need to have better dreams.”
 “There are other invitations to success.”
 “We will love ourselves in the morning.”
 “There is only a constant night.”
 “Where are you going?”
 “We are headed to Camp Leon?”
 “What is there?”
 “Food and shelter.”
 “The Camp Leon of the mind.”
 “Is he really that popular?”
 “Take this. You will always feel wonderful.”
 “There is wonder in our hearts.”
 “That does not make any difference.”
 “I am floating in a river of shit.”
 “There is an outer layer of sugar.”
 “Where are you hiding?”
 “I am up the rabbit hole.”
 “What is this?”
 “About playing games. Giving us things that we don’t deserve.”
 “We can’t be happy!”
 “We are eating our own shit!”
 “This is too much to worry about.”
 “That is not good.”
 “There is a river of caramel!”
 “Where are we going?”

"To the ends of the world."
 "My life is being torn from me."
 "He is using pliers in my mouth."
 "That hurts!"
 "I feel the metal drilling me from the inside."
 "Ouch!"
 "They are going to change the rules!"
 "There is going to be another winner."
 "We are going to build a pyramid!"
 "We need to play tennis."
 "We are fucking homeless!"
 "Cheese!"
 "Say cheese!"
 "I am going to sleep in the street!"
 "I should have stayed where I was."
 "This exploded."
 "Bingo!"
 "We can't win this way."
 "Have some eggs!"
 "I will eat anything."
 "We can pretend that we can have so much!"
 "Can you make this happen for me?"
 "There are voices in my head. And they are not reveling to me."
 "Tell me what you want to see!"
 "I cannot get out of here."
 "You did not use a good strategy."
 "We cannot get out of here."
 "Who is disturbing my good time?"
 "We won in our own way!"
 "Stop the war."
 "There is a battle coming."
 "It will take place in the streets!"
 "It is too late for me."
 "You need help."
 "I can save you."
 "You can become me."
 "I think that I will finish this, and then I will go."

The writer believes that he has the ability to do over the events in his life. This is the basis of the human project. You have the ability to represent your experience in a coherent way. You have the tools to change your life. This belief is based on the fact that present is constructed like the past. You have spent all your life tracking these regularities. And you discover patterns. You measure one pattern against another. You have a skill to do this quickly. You are viewing the world as an image for change. You see something and you have the ability

to change it.

This instrumental view is fundamental for your existence. It is the basis of your survival. You seek out those situations which help extend your experience. You enrich yourself through your interactions. You engage the world.

The attachment of the writer to his story is just that. He uses this story as anyone would. He is looking for the deeper patterns, the regularities that he can use to overcome the entropy that seeks to retard his progress. He has to believe. He needs the motivation to tell one more story. And that story will be his liberation.

The writer uses his ability to write himself out of the story. He is evading his need to respond for his own actions. In his rewrite, it is never him. And he is clever with his terms. He knows how to get others to do his bidding, This is not a difficult task. In some cases, people like to see themselves depicted in stirring tales. Even if they come to unfortunate ends, this recognition gives them a special power. Writers always engage in that flattery. They use their skill to ingratiate themselves with their public. People will accede as they are going down with the ship. How does this kind of trickery work. The writer has special skills. You want to zig, and he zags. After such a deception, you marvel at his unique skill.

You can't let the writer do this to you. But he succeeds every time as if he is biting into your flesh. That is what he wants. He will manipulate every time. You can feel your body going along with his tale. And you like it as it is. This is so remarkable. He is teaching you how to fly. He is taking from you what is yours. And you are amazed when he gives it back to you in small portions.

There is another side to this. The writer is enslaving the weak of heart. These readers are living his dream. They have been yanked from their world and tossed in the morass of his creation.

The writer wants to redo and relive because this give him the opportunity never to answer for his creation. He can recreate it. He can be the only one to escape his sinking ship. This is the key to his supposed triumph.

His words are like prayers. His stories are his scripture. And he tries to induct us into his cult. There is no other way to see his interference.

Cherie handed me a napkin from her tray. She placed it on the table. Then she gave me my drink.

"I am here to offer you liberation."

I wondered where this was supposed to take me. I couldn't imagine that a drink was going to transport me anywhere. Was I going to use my ideas to further my desires. Cherie wanted to oblige. She felt the need to share. And I wanted to hear the story. I wondered how I could make her the author of this story. Not just this story, her story. What was I denying to her? She did not have the tools to recover the meaning.

"How can you write about her and not give her a voice?"

"I want her to be the voice. But she is not willing to slow down and let her story be told. So I tell it again and again, but it is not coming out the same."

"What is the elemental experience which allows her story to emerge in its most original way?"

We have to start with a test or a questionnaire. This device will provide the

opportunity for Cherie to express what she wants for her life.

"You're so sweet. So petite. My Marie!"

"When the hell are we going to get off of this job. I am hating every minute of this."

"I want to go party."

"We could start now."

"If Roland catches us with alcohol on our breath, he is going to throw us out right now."

"I have some other ways to rewards ourselves."

"Reward is the ultimate response for everything that ails us."

"I feel particularly slighted."

"This is not how I want things to be."

Cherie revealed her options. She did not like how she had been represented in her story. She viewed the tale as emerging in a completely different manner. She has skills, and she needed the right forum for her superstardom. She didn't want to change the things that she did. She only wanted narration. And she wanted others to appreciate the role of this narrator.

"If I had to do it over again, I would give the world to fucking Marie."

"What does that mean?"

"This is the world, and this is fucking Marie. The world is yours."

"I WANT MORE CONSCIOUSNESS!"

"Marie, I gave you the world."

"Nurse Cherie, I want you to save me."

"I will do what I can."

"Do what you can, do what you will! Find your basis, and have a thrill."

"I need you to take me over to the next level."

"Need all you want. This is all that you are ever going to get out of me."

"Sweet Marie!"

"I want consciousness."

"I run my hands along your smooth legs."

"You are a creep."

"How do you want to be remembered?"

"For solving problems."

"Then there is sweet Marie. I lose myself in your presence."

"This is going to be a story."

"Connie wants to play."

"I need to tell it like it is."

"We have different hopes and dreams."

"We have faced dreams."

"I want to write about Sweet Marie; she was a girl from Mississippi. She was all that she could be. It's a tale about Sweet Marie."

"You live a shitty life, but you write a great book. Learn how to use the book to write a better tale."

"Are you on the lookout for me or you looking out for me?"

"We would be married and all my doubts would be dispelled."

Do you want to try some mistress? Do you think you could influence somebody else to do

something unusual something on my challenge their beliefs could you convince somebody to do something wrong even if she might find it exciting? Would you be willing to betray a friend if you could get some reward in return? Your leader or followers.

"If you were married, would you sleep with someone other than your wife if you found that you were more compatible? Would you remain in the loveless marriage because that is the right thing to do because you feel that you should be loyal to your wife? Faithful to your wife."

Would you like to do something a little during? Are you good at keeping secrets?"

"If your best friend wanted to sleep with your wife would you stop being your best friend? Do you want to have a little fun? Can we sign you up?"

"If your partner's best friend crawled into bed with you what would you do?"

"We would like to review your personality profile?"

You were adventuresome. You like to take risks explore new things you feel that there are no limits on what you can be. You're free to do whatever you want."

"Steven, what kind of person are you becoming? What do you say what you stand for? Even care about other people? Are you just trying to make yourself happy are you just trying to make yourself happy? I trusted you I looked up to you, Now what have you become?"

I have been assigned to you so that you can teach me. I want you to show me how to realize my potential. I want people to be impressed by what I can do."

"Could become Lia."

"What has my work done to me? I cannot get back to who I was. When I crossed this space, my body was doing things to me."

"I need to keep myself busy. When I am not eating, I feel as if I should be eating."

"I am ready to give everything that I have so that you will settle down with me."

"Understand the composition of the world."

"My actions show!"

"You will see in a while."

I don't have time for this."

"All I have to say is love me."

"You're funny!"

"We are ready to get going."

"You are both blood suckers."

"What does that mean?"

"There is a division."

"There are good angels and bad angels."

"There are all bad. They are trying to destroy the human will."

"How does that work?"

"They get in the head, and they make us do risky things. It is always the same."

"I hate you for doing me so badly."

"What does that mean?"

"You don't care for me anymore."

"Cherie, I need you to get better at this."

"What are you asking me?"

"Why don't you just do what you do?"

"Join in if you want to join in."

Sweet Marie had her own way to create balance. She found the door. Then she crashed it. No one else could get in. Marie contemplated how the world wanted her. They wanted Cherie in a different way. And they had taken so much being from Cherie. Marie existed in another realm. Now she was breaking down away from it all. There was just too much pressure to be like this all the time.

"Do you want to do something to help me?"

"What are you asking me?"

"I want to know what you know about yourself."

"I know words and what they mean."

"Marie, you are a shark."

"What does that mean?"

"I cannot give what I do not have."

"Where did you learn this skill?"

"Learning means forgetting what you know."

"Marie, I am looking at the foxes."

"I am going to hit the house of sin."

"What does that mean?"

"The chickens need to protect themselves."

"You cannot always share."

"I want to give of myself."

"Marie, you do not have enough to give. There needs to be more of an element of the tragic."

"Why do you mock me?"

"You could have so much more."

"I want to push for more."

"You are going to need a book."

"Do not go away mad."

"Why are you breaking down?"

"Do I need to be quicker. I am by myself. But I do not understand how to exist in complete solitude. You need to get to the other side."

"You are so cocky."

"Don't mock me."

"ARE YOU TRYING TO BLOCK ME FROM MY RIGHTFUL LEGACY?"

"I am ready to sacrifice everything that I have. After such a risk, I don't have much of anything."

"What is in there?"

"Everything that exists."

"What do you know that others do not know?"

"I know how to raise the dead."

"You are such a degenerate."

"Did you plan this?"

"IVANTAFOCK."

"You are a disadvantage."

"I need to escape from this planet. And I am being dragged down by my own bullshit."

"You may be able to finish this."

"I need to move further along."

"We are back where we should be!"

"This is going to be some nasty shit!"

"Do you want me to laugh about this?"

"I could do this if this was all that I needed."

"This is something which I know better than myself."

"I do not know myself."

"What are you telling me Cherie?"

"I am the one who always disappoints. I wake up in the morning and wonder what did I get into. But I keep thinking that I can change."

"There is no change."

"We all change faster than we know."

"I can do a lot better than this."

"No one really remembers as it happened."

"There are only a few places where this works."

"I saw it on television. And it will be there again."

"You need to be a lot faster."

"I want to film you."

"I have been filmed before."

"I could learn from seeing myself."

"Have you lost your mind? All of you."

"I had all these things. I faced the mirror. I reminded the self of the self. Was I ever going to have the opportunity to end this?"

"Steven, I see you."

"What is this about?"

"You are not as good at hiding."

"I have lost everything."

"You never really had it. It was all temporary."

"I can help you live."

"Are you going to give me what need to live."

"And what is that?"

"No one is there on Sunday afternoon."

"This is Friday."

"Steven, I cannot give you what you need."

"I only need to know you. That will give me everything to live."

"Am I a saint?"

"You are nothing but a saint."

"I want this more than anything."

"Turn this on faster."

"What song is this?"

"This is not a song."

"Why do you do it like this?"

Cherie did this enticing dance. I lost my breath. I could not keep up. I was only watching. But she was telling me something about light and darkness."

"Steven, you are so full of shit. You will never have anything that you want. You are disturbing any hope that you can be redeemed."

"Cherie, let me know everything that you can do."

"I can give you eternal life."

"How do you do that?"

"I demonstrate a new order of the universe."

"You can sense it in your body. But it is too breathtaking for me. If you understand it, I want you to share it with me."

"Steven, you are pathetic. Make your own way."

"I can give you things."

"What? A shit hold. Steven, you have nothing to give. You cannot even protect yourself."

"I am universe bound."

"I only need a watch and some time. "You are not going to be able to offer."

"I am going to fall in that chair."

"Everyone is watching."

"He did not care."

"Cherie, who did not care."

"I am all people. Everything begins and ends through me."

"Can you really accommodate to such a revelation?"

"Do you know what I have to offer?"

"I want to know."

"You are interfering in my heart."

"I hate to think about it that way."

"There is excitement to be shared."

"What is all of this?"

"My body is a technology."

"How does that work?"

"Do you have any doubts? You could write a whole book on my tender appeals. I could not be contained in a singled character."

"What are you asking for me?"

"Take a test. I need you to be honest about everything."

"How does that work?"

"Am I not the best? And you feel such jealousy that other guys get to have fun with me. Steven, you no longer have anything to offer. You have dirtied yourself by playing with the machines. They make you. There is nothing to recommend you any more. You have surrendered all the way."

Cherie could free me. But she did not understand that power. I felt that she was dragging me back to earth as I was trying to escape. I had started a new experiment. I was dreaming about Sweet Marie.

If I could teach Lia about this show, she could be the best. But there was no teaching in her soul. She was coming from a different place. She had her own dreams. She wanted them to be material. And I was interfering. All of this was interference.

"If you go near her, I will destroy you."

"What can you offer her?"

"I have given her liberation. You want to take her mind. You want to transform her into one of your zombies."

"I do not think of her like that?"

"What can you offer her?"

"I can help her to escape her human limitations."

"I am coasting in the universe."

"I am dropping through you."

"Do you all accept levels of self-hate?"

"What does that mean?"

"I am feeling extinct!"

"You will not be able to end my reign."

"We all know that you are behind this."

"Say it as it is!"

"I can distort everything in my life."

"I am getting beyond."

"There are boundaries."

"Hold me close."

"You were supposed to rescue me."

"Fuck that shit. I only live for pleasure."

"You could be a killer. You know no restraint."

"You need a theory."

"I want to understand what makes me this."

"Can anyone stop you?"

"This is all going in the same place."

"Drain or source?"

"Sources are out of control. There is not enough return to power."

"What is return to power?"

"Someone likes Oreos."

"What is it about Oreos?"

"She is waiting for you."

"We are all waiting."

"What if there was a Lia?"

"She would be the beginning."

"She would be the beginning of the end."

"There will be no way in if we cannot get out."

"Where did you get this character?"

"He loves me?"

"He loves someone else too."

"He love me in an original way."

"What is the biology of this?"

"Who is hearing this lesson."

"Leave her alone."

"What are you telling me?"

"Steven, you are some kind of fucking monster. She needs to have the space to grow. You might as well turn her into a zombie."

"What does that mean?"

"She has been turned into a sex monster."

"I want to experience that"

"All that you believe in is the reinforcement of self."

"I am feeling all cocked out."

"How can that be?"

"These are all beliefs. I need to live with something real."

"Like them. What do they have?"

"What do I have?"

"You have me."

"What are you telling me Cherie?"

"I have something that Lia could never give you."

"What is that?"

"An understanding of tragedy."

"What is tragedy?"

"An ability to relapse."

"You do not have enough to resist."

"You have to give in supremely."

"Where is this going?"

"Steven, I need to speak to you."

"What do you want to say?"

"You have fucked me and fucked me over. I do not need this."

"I need to play it as it exists."

"I never want to be like this."

"You have fucked me over and over."

"I do not need this."

"I know how to do this right."

"This is going to take longer than I thought."

"I was getting worried."

"There is nothing to worry about."

"Are you Steven Fisher?"

"What do you want me for?"

"What kind of person are you?"

"Who are you?"

"The new authorities. We have something important to tell you. You cannot make a book with your dick."

"I am not sure what you are telling me."

"Your desire is not sufficient. People are starving. They are being mistreated by a

tyrannical government.”

“I am not siding with tyranny.”

“Your dick is the essence of human subjugation.”

“Am I supposed to believe this characterization?”

“The detectives know. We know what you are doing in those cars.”

“Fuck everyone.”

“On your knees.”

“I want you to forgive me.”

“Steven, it does not work like that.”

“You are being so creepy to me.”

“You are being so creepy to me.”

“I love you all.”

“I am Cherie. It is enough to love me!”

“This is heading in the wrong place.”

“Come home with me. Be my baby’s baby sitter so that I can fuck someone else.”

“Is that your fear?”

“Do not lead us to the water?”

“I only know the water.”

“This could be a better tale.”

“You got me through!”

“If I marry you, then I can administer your property.”

“Is that kind of threat.”

“What is that supposed to mean.”

“I now pronounce you man and lesser man.”

“By the way, here are your million. It is time to do something with what you have.”

“And what do you have?”

“Something that gnaws at my brain.”

“I figured that I could follow along with your story. We would travel the country. We would see things which we had never seen before. We could capture a harmony which made the planet twist in the universe. All these happenings could receive a nod of necessity. This must be.”

“I am feeling trapped by this picture.”

“This is too casual for me.”

“I have a place where I can be an expert. Follow me along.”

“You will be speaking to the stars. What am I to make of all that bull shit?”

“I have it together more than most.”

“Is that how we arrive at an answer?”

“Do you hear that? The universe is vibrating everywhere.”

“We need more of a push.”

“*This is perfect for you.*”

“*What does that mean?*”

“*You can’t exaggerate what is possible. Work a little. Eat a little. Sleep some more. Sleep some more.*”

“*I want something more. It is becoming harder and harder to find a little comfort.*”

"This is too backwards for me."

"Close the door on yourself.":

"You are surely going to need guards."

"Shirley needs someone to look over her."

"You have to protect yourself against yourself."

"What are we fighting over?"

"The right to be we!"

"I thought that was settled."

"I am striving to be myself."

"I keep getting further away from who I really am."

"I know that there is a method."

"Where there is a will, there is a way there is a will."

"There is going to be a great revelation."

"IN ORDER TO REVEAL, THERE NEEDS TO BE SOMETHING WHICH YOU WANT TO SEE."

"I WANT TO SEE THE ENDS OF THE EARTH."

"THIS IS COMING. LIGHT IS BENDING YOUR WAY."

"When you give, you end up giving back."

"Millions have seen this. You are not unique."

"I took you to have and to hold, to love and to cherish. To give me what I would need until the end of time."

"I am not going to let you get way."

"I am already so far away from myself."

"You cannot make the world happen for you in that little box."

"I cannot watch the both of you fight."

"He is coming back to rescue me."

"That is my ultimate deal."

"You can ask me."

"Did you transform?"

After we are married, then things will all make sense. The squabbles, which we have endured, will all be cleared up due to the clarity of the law. The only basis for argument becomes emotion, but if our emotions are in place, we will not argue. Out only concern will be the betterment of human kind."

"How were you able to transform?"

"I never had any fever about those things which might disrupt my soul."

"We are so together."

"I know what I need to be myself."

"Come closer."

"I have been through this. I can survive on my own. I have a better deal."

"How did this marriage ever come apart?"

"We were protecting what we had, and we tried to expand to something more."

"And where does that end."

"I have been here for a long time, and I have little to show for it. I really believe that we need to do so much more."

"This is a two-step process."
"It has to be diagonal. You need to take both steps at the beginning."
"Is this scientific?"
"Hold my hand and I will know."
"Is this a date."
"This is a partnership."
"I am going to develop the land."
"There is too much pavement."
"There is not enough forest."
"We need more of a hiding place."
"Someone always wants to join in."
"There will be reckoning."
"There will be a wrecking. By destroying, we learn what the basic elements are. We can find out how to build."
"Do not stare."
"I am trying to figure out beyond the sun."
"Get in the vehicle. We are going somewhere!"
"I am trying to catch up."
"Don't worry. I have this nationwide crawler. Not much for gas mileage. But this thing is sturdy as shit."
"We are going to find the connection which holds the continent together."
"There is something in the soil."
"They are destroying the element basis. And they are trying to replace it with another balance."
"This story is going to get good."
"We are never going to fight. We love what we have. We live in a land of plenty."
"Why do I have my suspicions? I feel as if I am going to get left somewhere."
"We all get left. We learn that we have to go back to the beginning."
"What do you need?"
"A shovel and an ax."
"Can you make the world from your own sweat and tears?"
"I can try. I can make things happen in heaven. And earth is ready to accept my kisses."
"I want to visit."
"I am really going to go far out."
"I have the answer prepared."
"You are a little confuse."
"I took the medicine."
"There is not other way to react."
"This is the middle of nowhere. We have no more food. We have no money, and no gas."
"We are going to hunt."
"For animals."
"For roots and berries."

"This is not going to work."

"You only need a strategy."

"You need a successful strategy."

"I have wonderful friends."

"How does any of this work?"

"Trust me!"

"This is where we left off. Marriage does not make it any easier to trust you."

"I have no idea who you are. You ended up in my life."

"You are very expressive."

"This is getting even worse."

"There is something more to wish for."

"Like what?"

"I am looking for the complete balance."

"You are making me give too much of myself."

"I need to sleep this off."

"You can do it all in the back."

"What is in the back?"

"Another bed. We will soon be at our destination."

"I was sure that I had been kidnaped. This direction was not mine at all."

If I was some kind of prisoner, I wondered what was her hope. Would I wake up, and change my belief system. I knew what I wanted. I wanted to leave my old life not devote myself to some kind of spiritual journey around country. I would be fed, but I could not imagine any kind of reward.

"I am not going to complain if I am going to get something out of this."

"I need you to drive."

"I have changed myself into a great driver."

"There is only place where there is no answer."

"You made this so easy. Now you have skipped all the steps."

"We can stop in the usual tourist spots, but I believe that we are moving to a new understanding."

"Is it inside of us, or is it in the universe?"

"What do you want? You are not ready to understand."

"There is poetry in motion."

"I want you to lead with your eyes."

"I need to get off of this craft."

"Who are you?"

"There is only one thing to say. I need to have a better grasp of the numbers."

"Once. I was a child."

"Once, I was a child. Things got so out of hand."

"I am doing my best to hang out."

"I want to hang with you."

"My universe broke in two. I was holding two pieces."

"That sounds pretty clever."

"There is another way to make it all hold together."

"Come with me on an adventure."

"This adventure is out of the self."

"How can you reach that far out of the self?"

"You have to arrive at another representation."

"We are working together."

"I stole this RV. It was wonderful. It gave me a place to live. I could cook in this thing. I had a hope. I did not want to get caught. This was worse than a little scary."

"Only one person will be successful in escaping what is happening."

"I am everywhere manifest."

"What does that mean?"

"There are greater forces which hold us together."

This cop car pulled in back of me. What was I going to tell him? I did not have the papers. I needed to think quickly.

"This vehicle is radioactive. I am the only person who is courageous enough to drive it away from town."

"You are heading towards a massive population center. This is not going to be good for any of us."

"There is one final chess piece to play."

"You are doing this for all of us."

"Be courageous."

"You can ask me any questions."

"This has to work for all of us."

"She knows better than any of us."

"This is pure realization."

"I am jumping out of my skin."

"This is like an interplanetary adventure."

"I added so much shit."

"I touched down."

"You are not going to be charged. But be careful."

Did he realize that I had taken this? What kind of punishment awaited me? He was telling me that I would devise my own punishment. I hated to think of a universe that balanced in itself.

"I am watching me turn into myself."

"You know who I am."

"No!"

"I am the one who has been appointed to destroy you."

"I thought that you had an answer."

"I thought that I had something which would serve me."

"I do not want to seem to be a killjoy, but no one can survive out here like that."

"Why do the values seem to repulse?"

"There are these slight forces."

"Does the repulsion take place across the barrier."

"There is a zig zag to this."

"Where am I?"

"You are in the hospital. Someone found you wandering in the desert. You have been bit by a rattler. He sucked out the poison. But you were too far gone. So you were brought here. You have passed over to the other side. You will always be living in a different universe. You will always have to face something that is not you. You will be living in two simultaneous universes."

"Why are you so sure of things?"

"I have a method."

"How does this method help."

"We only need one value."

"When are you going to go back to the desert?"

"These abandoned places are not what they seem to be. They seem to hold together some kind of social repetition."

"Do not hate me!"

"I am not going very far."

"We need to talk."

"What does that mean?"

"I am not in the position to say much."

"We are going around over and over and over again."

"Where do we touch down?"

"On earth?"

"That is a terrible answer."

I was letting my delirium guide me. I needed to assert more independence.

"This is where the experiment sets in."

"All these possible cases, these points of entry, became points of exit. We were all trying to escape each other."

"There is this force of repulsion."

"What if these particles carry the impulse, and these others carry the repulse. Where is this going to end up?"

"In New Mexico!"

"This was a sense of liberation."

"A lot of things are possible."

"What difference does it make to me?"

"There is a coalition coming out of this."

"There is going to be a showdown."

"This is illegal."

"It is your move."

"He is going to do something really silly."

"All the values are balanced."

"Married."

"I am not sure if I want to describe it that way."

"It seemed to work in my world."

"Whoa!"

"We are really out front!"

"We are toast."

"What does that mean?"

"There is a point when you are burnt to a crisp."

"I like crunchy."

"Some people do not understand the crunch."

"There is another layer of the universe. It is like a glue. It has a lot of give, and this substance makes things very tasty. And an understanding of the cosmos reveals these tasty layers."

"What are you really afraid?"

"There are ways to make your mark."

"I do not want to continue this."

"I cannot think about this."

"There is a fleshy layer."

"Then there is gaseous layer."

"The juice is released."

"It all has a personality."

"Why would someone abandon you like this?"

"She realized who I really was. I was not going to serve her vision of the universe. So she said that it was my chance to make a life on my own. I had given her so much of myself. But that vision became so obvious. She had used me as some kind of prop to test her ideas."

"There are a few people who have the ability to destroy the universe with their minds."

"There is a cloud full of ideas, and that entity has the power to change the energy balances."

What the fuck are you talking about?"

"This is a presence of evil. And the cloud expands. And it sucks all the energy from the universe. How could one entity be so active in extending its reign?"

"There is always another level of manifestation."

"I am going to have to survive in the wilderness."

"Some people act as if they can encompass all of these values."

"There are different ways to come to a resolution."

"Who wants what you do? It has to be someone so simple."

"What does that mean?"

"You cannot play dice with the universe."

"This going beyond that. The cosmos is fucking with you."

"You acted too quickly!"

"I am going to spend all my money on gum."

"I think that all of this stopped."

"I could switch addresses."

"This is a person with no fixed address."

"The universe is cracking before me."

"This is where I wanted to start."

"This will be temporary."

"There are ways of arriving at a resolution."

"There is a limit."

"That is called the body."
"You better take care of this quickly!"
"This is a surprise."
"We have no time!"
"This is a violation."
"We can do this!"
"We can stop this."
"These rattlers are magical."
"That is too easy. You cannot make humanity with poison."
"What bothers you more than anything?"
"I am very pious."
"Who do you believe?"
"Only one person can save me."
"Are you trying to kill me?"
"What does that mean?"
"I look into your face, and I wonder what you are trying to do to me."
"This is so contrary of the way that I think about myself."
"Eat this, and you can be healed."
"I am addicted to pickles."
"What is bothering you?"
"I cannot get enough."
"Is this a complement?"
"Cereal and milk."
"There is always the sugar equation."
"What is that?"
"You add a little more when you are feeling really good."
"I am dealing with so much vanity."
"You are not teaching me anything."
 "I am so over this."
 "The story is so far beyond."
 "Honey, you need to wake up."
 "I cannot wake up."
 "Not this."
 "This is too much for me."
 "I am starving."
 "We are going to make a stop. There will just be a little time. You need to be quick."
 "I cannot even look at this."
 "We are sucking up the universe into ourselves. We started with a few grains. And now we control all of this."
 "This is not healthy."
 "Go back to sleep. I will wake you when we arrive."
 "We only arrive when we are ready to leave."
 "What does that mean?"
 "This will not be as fruitful journey as we expect."

"Let this happen to you."

"I know who you are."

I decided to keep riding with her. That was the feeling which helped to keep me together. I needed to take a stand. I needed to tell her that she could not manipulate me. I was manipulating myself.

"Have you found ways to control my behavior?"

"There is a purer version of me."

"Why are you playing with my mind?"

"There is nothing better to play with."

"I am going to chew it all up."

"We need to expand."

"It is all in the head."

"STOP THIS DISSENSATION!"

"We have been given permission to remake the world."

"Do it with a marshmallow center!"

"Break off a piece."

"It will expand in your system."

"You could have been a better person."

"I am working it out. For every better person, there is a worse."

"What is the worst?"

"We are coming to that. An inventor!"

"What did you invent?"

"The universal killing machine."

"Is there a conscience?"

"Is there another book?"

"It is all in there."

"At a certain point, you lose all connection to morality. From that point on, everything seems to be so destructive."

"It is not as if I go around and collect love buttons."

"You are such a flower child."

"What does that mean?"

"Someone who really likes flowers."

"Something hurts inside."

"This is not going anywhere."

"It is coming to a resolution."

"What could that be?"

"You could drive away and leave me. It would be as if we had never known each other. I would feel sad at first. Then I would realize that I made all this shit up. I wouldn't recognize you after that. These are the conditions of my life. And they keep getting rarer. I want a little more, but it is never available."

"I am the new arrival."

"I am the one who interferes."

"You all need to go!"

"I am no the highway."

"I will always remember you. This vision will become a big deal for me. I will think about it all the time."

"There is only one way to think about it quickly."

"It gets into your mind. You want love so much. And you give it all away. She says what you want to hear. She might as well have a telegraph."

"She knows the secret."

"What do you know?"

"There is a place where I cannot be beat."

"This is going to happen tomorrow."

"What are you afraid of?"

"What are you protecting?"

"You are all criminals!"

"You are not above the law!"

"There is going to be a fight about this."

"Someone needs to make the law."

"This is not about the law."

"You take what you can take."

"You are giving too much of yourself to this tomfoolery."

"We can all vacate."

"You were never really part of my life."

"How does that go? I know so much about you and what you want."

"What difference does that make? None of this is real."

"We don't need a third party trying to act as a referee."

"That is exactly what I am doing. There are things in me that make me want to be someone else."

"Why do you tolerate this?"

"That is all that there is to it."

"I need an explanation."

"We will never be free."

"You are not part of this."

"What?"

"None of these values touch the planet!"

"What is that about?"

"There is another place in the universe where all of this will make sense."

"You do not have a chance!"

"Beautiful!"

"I think that you understand!"

"Was that uncomfortable enough for you?"

"This was so far beyond anything that you had known before."

"Enjoy it for what it is!"

"You have arrived."

"What did you bring?"

"Salami and rye."

"That is not going to help."
 "Packer's popcorn."
 "We could float a universe on that."
 "This is going to be very important."
 "Tell me what you really think."
 "How did you get like that?"
 "I am not looking for an offer."
 "I want this to be cheaper."
 "None of this will be cheap."
 "What are you willing to give up?"
 "Anything that I do not take."
 "Pay and forever hold your peace."
 "Where is the chorus?"
 "Right here."
 "That is so good."
 "You made me feel good."
 "WHO ARE YOU?"
 "There is no good."
 "It is all a now!"
 "That is my song."
 "You are not even here."
 "The vehicle was never even here."
 "I do not want to go back."
 "This reads so well"
 "I want to invite you to a party."
 "I have partied too much with you. I have given too much of myself to you."
 "This is hardly fair."
 "There are winners and losers."
 "I do not want to fail here."
 "You are not as special as you seem"
 "That is the essence of your existence."
 "Are you going to sleep in the park?"
 "I am a park unto myself."
 "All the words are dripping from me."
 "There is no saving here."
 "My doctor told me to go to bed early."
 "My partner told me to go to bed early."
 "I am looking for a place to crash."
 "You are watching over, watching over me."
 "Does she know?"
 "She know everything that has happening."
 "What is everything that she knows?"
 "Who is she that she knows?"

"Who would spend all her time watching?"

"I cannot explain this to you."

"I need to put all of this out of my head."

"I am not going to do this for you."

"Who are you to expect that any of this will be different."

"Stop me before I say something silly."

"I really wish that there was just such a person in my life. And if she existed, she would be watching me. And if she was watching me, then she would realize how important everything was to my existence. I am doing this for the world."

"When did you ever take a chance to know?"

"This is madness."

"All these equations are important. This is a procedure to improve the manufacturing processes."

"We are looking at each other."

"You will have to learn how to step out of the circle."

"I am encircled."

"You have to circumscribe your culture."

"I will wake up one day, and I will be doing it."

"No one will disturb me."

"I can't really do anything to help."

"It has been an exhausting week,"

"I am using my mind to make things happen."

"If there was some she, that she would be you."

This was going to be her story. But she did not have enough ambition."

"What do you want me to do? I do enough to do my job."

"What is the excess? What happens when someone says fuck it."

"I am doing what I can."

"Can you eat it?"

"Are you doing the practical thing."

She realized that she could only do the practical thing."

"Practical for what. Are you going to learn the skills which may enable you to do a host of tasks."

"I am good at taking orders. I will be excellent at giving order."

"Go back, and sit with your friends. You are bothering me."

"This is your life. You are the advanced baby sitter."

"I need someone to watch baby while I go and save the world."

"Baby is older."

"How did this get done?"

"It was not something which I wanted to happen."

"Why did it happen?"

"I hopped in a space ship."

"That implies that the universe has the possibility to equalize things."

"I could have been you. I could have watched the world collapse in my hands."

"How do I get this degree?"

"Deny everything that you were."

"The story is so far advanced."

"This guy is mad man."

"He makes it up in his mind."

"Some people cannot even count."

"If you can sense these forces rolling over you, then you can prepare what is coming."

"I can smell dinner."

"Where are we?"

"We are way out of ourselves."

"I need to find a way to escape."

"Sleep here until you can escape."

"You are never going to escape."

"You are such a honey."

"I am dripping with your shit."

"Come back with more shit."

"You had it really bad. Now you have it really worse."

"I need to figure this out."

"Are you going to tell me what really happened to me?"

"What does that mean?"

"I am sure that you really fucked with me."

"What is the problem?"

"You are telling me nothing."

"This is a total mess."

"You are holding on to all the strings."

"Dance, puppet."

I was reviewing all my properties. This would give me the opportunity to expand."

"Do you know what you are talking about?"

"These small empires are turning into something massive."

"You don't even know what I have got."

"It is never what you have in the hand. It is all about what you hold in reserve."

"How do you hold this together?"

"I live on salads."

"That is marvelous."

"There is so much garbage. So much food tossed away. That could be my path to success."

"How would that work?"

"I could collect everything that was tossed away."

"This would be the beginning of a reckoning."

"Do you have the full edition?"

"I am fucking proud of you people."

This was a moment when a coherent story could emerge. It was not as if anyone had

the focus. There were so many things happening in the mind. So many interruptions. Survival was never a game. There were so many unpredictables. Any of these threats could just crush you. No would want to be like this.

"You could make this list. All the things that you lost, and all the things that you wanted back. None of that was any kind of guarantee. I just want to tell it like this. I ended up in a bad place."

"This place is so bad."

"There are so many variations."

"What did you eat?"

"That is a big question."

"What do you do now?"

"I test puzzles."

"Who does puzzles?"

"People with time on their hands."

"If I get out of here, I will have time on my hands."

"This is not going to work. You need to have something positive in your life."

"I get something positive. Then I just need some activity. And doing the same thing over and over and over again made me feel as if I was getting close to sanity. This kind of obsession was nothing to be proud of. To much of my awareness was this repetition of the same thing over and over again."

"You need to tell the truth. And you need to tell the truth to me. I am the only one who can save. And I am the only who can save you."

"That is not enough for me. I want something that is going to last. And this does not seem to last."

"I can fix the edges."

"I am turning into a star."

"I need to get better at this."

"Use these toys."

"You need to keep this going a little longer."

"I think it is time that you picked up the violin."

"There are so many things that you can do."

"And what do you play?"

"I play the stereo."

"How do you make it go"

"I have a switch."

"Do not hurt me, switch child."

"There is no hurting here."

"We are so far beyond. We are not going back."

"Maybe a Demetria or a Zarina."

"How is that going to help anyone?"

"Do you really think that Cherie is going to get the will?"

"She doesn't need the will. She only needs to go to the right place."

"There is no fashion here."

"This is a public health. We all have white hospital smocks."
"It is time for craft class."
"What is that?"
"It is show and tell."
"What do you want to tell?"
"I am free!"
"We are almost there."
"Are you working?"
"I am getting paid."
"What are you getting paid?"
"We need to work on this together."
"This is how I survive."
"We have other suppliers."
"Can you give me what I need?"
"EAT THIS, DRINK THIS, AND STAY HERE!"
"Where is this going?"
"This is getting too close to me."
"Your eyes cannot focus. This is going to your head."
"I was not meant to be like this."
"I AM LEON!"
"What kind of fight do we have?"
"It's not as if this is a hunger strike."
"Do you need more than you have?"
"When will this end?"
"I need another episode."
"There is too much pain here."
"They rewarded you."
"I still feel like a rat."
"Do not be afraid of me!"
"What does that mean?"
"There are enemies."
"There is another step."
"It is not going to work."
"We thought that this would boil over."
"They hate you. It is going to show."
"You are going to need more restraint if you hope to make any progress."
"There's a place in here where you could theoretically hang."
"I have some words for that."
"Hop along on one foot."
"We are trying to find more energy."
"We know!"
"We are disciples."
"What do you believe."

"I can save myself!"
 "The person who saves himself has fool for a believer."
 "This is only going to get worse."
 "I can push my way to the top."
 "You have been here before."
 "I can do more than this."
 "It is not as pleasant as it seems."
 "Free style."
 "There are no winners."
 "Run the table."
 "I do not have the cards."
 "Bluff your way."
 "A fool for a client."
 "We will bring you back to life!"
 "I am not looking for miracles."
 "That is how the story ends. You get accused, then you escape."
 "I come for you."
 "What does that mean?"
 "It goes back to the beginning. I can help."
 "How can you do that?"
 "I can cure your disease."
 "I am my disease."
 "What does that mean?"
 "I am slowly destroying myself."
 "There is a germ in us that ends it all."
 "I am fighting that germ."
 "You are that germ for the human condition."
 "What can I do?"
 "One two three!"
 "Ask me what I am doing?"
 "Creating business for the damned."
 "How does that work?"
 "A pat on the back."
 "That seems nasty."
 "You have no idea what I really have in store."
 "Where is the blessing?"
 "It is the last meal."
 "I do not deal well with the last."
"I am sitting at a table, and she asks me if want a drink."
"Bring me a gin and tonic."
"I need you to get me out of this place."
"I can give you a good tip."
"What do you want to know?"
"How can you survive by giving so much of yourself to other people?"

"That is how I discover my humanity."

"I know you."

"Cherie is supposed to lead me to another state of existence. She does not want to learn, but she has given too much of herself!"

"What are you saying to?"

"Consciousness does not allow me to gain that state. I need something to help me along."

"I found a solution.":

"This is not as funny as it seems."

"The universe does not allow for such solemn balance."

"Is that a hospital bracelet?"

"Do not hurt me!"

"You have to save me."

"From whom?"

"This guy I owe money to."

"To the night nurse."

"To the bank."

"My ex."

"The bartender."

"Some really cool guy who I am using to fuck with you two."

"You are not as blessed as you seem."

"What do you do during the daytime?"

"I do not want to respond."

"Are you some kind of angel?"

"I am the perfect angle."

"There has to be a way to balance these values."

"Can you discourse about anything more intelligent?"

"I want someone to give me what I deserve."

"I need to reach for the stars."

"How long have you been in here?"

"Since birth!"

"This was a very bad experience."

"I need to teach you something."

"I am going to act like I used to."

"You are not even in the show!"

"Cherie is working on a book."

"I know things."

"What is she talking about?"

"Fashion tips. Ways to get ahead in business."

"No one is getting ahead with this future."

"I keep waking up knowing less than I knew the time before."

"There are rules."

"I called it next."

"These rules are falling apart."

“DO YOU LIKE ME? DO YOU FUCKING LIKE ME?”

“You are so creative?”

“What do you offer? What can you do?”

“I can create a straight line.”

“Where is the intersection?”

“My life is intersecting everywhere.”

“I err!”

“This is a story about remedies for common illnesses.”

“What can you do?”

“It is adding up.”

“I think that I can do more that I can do!”

“I am going to win this hand.”

“What do you really know?”

“I feel very creative. I know how the universe curves.”

“What does that mean?”

“I see the surprises. I can fool with people, and they have no idea what is going on.”

“I am not even playing.”

“He is getting back his rhythm.”

“I want to join in.”

“It is going to be a great night.”

“Bring me my gin and tonic!”

“You have been cut off.”

“What is that about?”

“Do you ever get cut off?”

“Do you?”

“What kind of person answers a question with a question?”

“A curious person. A more curious person. The most curious person in the world.”

“Do you like to try.”

“This is not even interesting.”

“Some people beat themselves.”

“Cherie, do you have a destructive streak?”

“I would have to understand more about the universe.”

“I can stop myself.”

“He is shit.”

“I am fantastic at this.”

“Good thing.”

“Where is this going?”

“I need a stronger foundation.”

“I am selling chocolate bars for a living.”

“What cut do you get?”

“Whatever I don’t eat.”

“What is wrong?”

“I want Cherie to reveal more.”

“She only understand one range of revelation.”

"Do I get some?"
"Some things are too good to be true."
"I am going to change the world."
"No one understands me."
"I want to keep the universe safe."
"Where are you now."
"I am ready to descend. The world is dragging me down."
"Cherie was supposed to lead you to the end."
"She doesn't even understand the beginning."
"I want to make this interesting."
"There is no interesting."
"There is an animal inside."
"One animal to another."
"I am redoing my evolution."
"What does that mean?"
"What do you know about interstellar transport?"
"You believe the most amazing bull shit."
"Cherie, what do you know about the spirals. Are you fading on me?"
"I am fading on myself."
"This is not even close."
"Then how can I get better."
"One hour until close."
"I want to stay where I am."
"I am where I am."
"Where is that?"
"I am asleep in a car."
"And what does that mean?"
"This is utter perfection. There could not be a more consistent balance of rhythms."
"That sounds like nonsense."
"This makes perfect sense."
"Who made you an expert on sense."
"This is so terrible."
"We will learn to tolerate it."
"You do not have a chance."
"I am defeating myself."
"I am in safety mode."
"You cannot sleep here."
"I am in my car."
"These are rich people. They resent you."
"You are not real, and this sleep is too perfect."
"Did you pay for this?"
"I am going to clean myself."
"I am going to put all my energy into this."
"This is totally negative energy."

"I want to be nice to you."

I was totally suspended in the nether zone. Nothing could be more relaxing. Everything was taken from me. I was floating. I gave in. My surrender was a wonder.

"I can show you things about yourself."

"I completely gave way."

"Are you coming back?"

"I do not need any back. I am all here."

"Do not try to disturb me."

Fire rescue showed up with the intention of rescuing a helpless victim. I saw them exit the vehicles and run up the stairs.

"The end is near."

"Can we do anything for you?"

"I am ready to drive away."

"Did you see the fire?"

"You are the fire."

"This is going to be a forever of forevers."

"We saw this dead guy. And we called fire rescue."

"Do not disturb my sleep."

"What are you trying to tell me?"

"What do you want me to tell you."

"One of you is living the perfect life."

"I am going to be inside your house preaching revolutionary thought."

"I can sleep on my own."

"This is going to continue on forever."

"There is too much of myself tied up in this story."

"We are going to put you all away."

"You are ripping."

"This is fun."

"I do not have a chance."

"I want to go one against one."

"I have done this too long."

"What do you have for me?"

"I have a winner!"

"Let us do what we can to revive you."

"I am still learning."

"I cannot be stopped."

"I have more in me than you know."

"Who teaches you to be an asshole."

"We can bring you back from the dead."

"He is not moving."

"I am driving. I need to get out of here."

"Shit! I hit a wall."

"I am behind a wall."

"I want to get to the other side."

"Where can this monstrousness go to hide?"

"Deep inside the self."

"Do you like hiding out with these shitheads?"

"You are on of these. You think that you have more than you do."

"I am revived. I see it all. I see who is doing what he can to disrupt my solace."

"This is much worse than I could imagine."

"There is still a lot of game left. This is not going to end."

"What are you telling me?"

"We are going to make this happen."

"He is not dead."

"He drove away."

"Why do I like this stuff?"

"You are over it."

"I am projecting into the universe."

"Have you found a way out of here?"

"You are flying."

"Someone is going to interrupt our show."

"What does you want?"

"I have it all. Way better than you."

"Are you doing this professionally?"

"I make it happen one breath at a time."

"I am floating."

"The universe is willing to take me beyond all of this."

"I am not even trying."

I was gaining escape velocity. I needed to encompass all of this. I had something that none of them had. Total resolution.

"When are we going to end?"

"When nothing ever happens, everything happens."

"There are different measures."

"It is one against the other."

"I cannot get in on it."

"I would rather have a dog."

"What does that mean?"

"Why should I care? What do you have to tell me? What do you have to teach me? Who are all you people? What do you value? This is pathetic. I should have stayed asleep."

"Are you all working together?"

"Are you anesthetized?"

"All the way."

"What are you afraid of? What is not in your heart?"

"Time to exit."

"I am going back to losing."

"We all lose one way or another."

"I need more to survive."

“How does that go?”

“It is all about the dust.”

“I am getting buried in this shit.”

“How is that?”

“I need Cherie to come out of character.”

“She likes the now as a now!”

“Why is it like this at the end?”

“You do believe your own shit.”

“I am flying.”

“How is that?”

“Cherie can explain it all!”
